PART 3
SAMPLE ANSWERS

@TOPIC_BASED_VOCABULARY

PART 3 SAMPLE ANSWERS:

1. What are the advantages and disadvantages of being a famous child?

Sample Answer (Band 7+):

Being a famous child certainly has both perks and drawbacks. On the positive side, fame can bring financial security and unique opportunities such as meeting influential people or travelling the world. For instance, many child actors get roles in international movies, which opens doors for future success.

However, the downside is that fame often comes at the cost of privacy and a normal childhood. Famous children may struggle with pressure from the public eye, lack of genuine friendships, and even mental health issues later in life.

COLLOCATIONS – DEFINITIONS

1. **financial security** – Having enough money to live comfortably without financial worries.
2. **public attention** – The interest or focus of the general public on a person or event.
3. **loss of privacy** – A situation where someone's personal life becomes exposed to others.
4. **media pressure** – Stress or influence caused by intense media coverage or expectations.
5. **emotional well-being** – A person's overall mental and emotional health and stability.
6. **fast-track career** – A career path that advances more quickly than usual due to early success.
7. **unrealistic expectations** – Hopes or demands that are unlikely to be achieved or reasonable.

2. What can children do with their fame?

Sample Answer (Band 7+):

Children who gain fame can use it in a positive way by promoting good causes or raising awareness about important issues. For example, some young celebrities advocate for environmental protection or mental health awareness.

Additionally, they can build their personal brand and secure sponsorship deals, which might help them in the long term. However, it's important that their fame is guided and managed wisely by responsible adults.

COLLOCATIONS – DEFINITIONS:

1. **promote a cause** – To publicly support or raise awareness for a social or charitable issue.
2. **raise awareness** – To help more people know or understand an important topic or problem.

3. **secure sponsorships** – To obtain financial or promotional support from companies or individuals.
4. **build a personal brand** – To develop and maintain a unique identity or image for oneself, especially online.
5. **social media influence** – The ability to affect people's opinions or behavior through platforms like Instagram or TikTok.
6. **philanthropic activities** – Actions aimed at helping others, often through donations or charitable work.
7. **manage fame responsibly** – To handle the effects of being famous in a mature and sensible way.

3. What can today's children do to become famous?
Sample Answer (Band 7+):
Nowadays, children can become famous in many ways, especially through social media platforms like YouTube or TikTok. If a child is particularly talented in music, acting, or even gaming, they can gain a massive following online.
Another way is by participating in talent shows or reality TV programs, which provide instant exposure. Nevertheless, it's crucial that their rise to fame is handled carefully to avoid exploitation or burnout.

COLLOCATIONS – DEFINITIONS:

1. **go viral** – To become extremely popular online in a short period of time.
2. **gain a following** – To attract a group of people who regularly watch or support someone.
3. **overnight sensation** – A person who becomes very famous suddenly and unexpectedly.
4. **online presence** – A person's visibility or activity on the internet, especially on social media.
5. **participate in talent shows** – To take part in competitions that showcase special skills.
6. **rise to fame** – The process of becoming well-known or popular.
7. **media exposure** – Being featured or talked about in the media (TV, radio, internet, etc.).

4. Do people become famous just because of their talent?

Sample Answer (Band 7+):

Not necessarily. While talent plays a major role, there are other factors that contribute to fame, such as luck, timing, or even social media presence. Some people become famous due to their personality, appearance, or involvement in viral content, rather than any specific skill.

In contrast, truly talented individuals sometimes remain unnoticed simply because they lack the right platform or connections. So, fame is a mix of talent, exposure, and sometimes pure chance.

COLLOCATIONS – DEFINITIONS:

1. **natural talent** – An ability or skill someone is born with, not learned.
2. **media exposure** – Publicity or coverage by newspapers, TV, or online platforms.
3. **viral content** – Online material (videos, posts, etc.) that spreads quickly and widely.
4. **public recognition** – When many people know and admire someone for their achievements.
5. **social media fame** – Becoming popular through platforms like TikTok, Instagram, or YouTube.
6. **right place at the right time** – Being somewhere by chance when an opportunity appears.
7. **lack of recognition** – When someone's skills or efforts are not noticed or appreciated.

@TOPIC_BASED_VOCABULARY

PART 3 SAMPLE ANSWERS:

1. Why do people choose to build houses by themselves?

Sample Answer (Band 7+):

Many people opt to build their own homes because it allows them to customize every aspect according to their needs and preferences. It also gives them control over the budget, materials, and design. Additionally, some enjoy the sense of achievement that comes with creating something from the ground up.

COLLOCATIONS + DEFINITIONS:

1. Build from scratch

Definition: To start building without using any pre-made structures or kits.

2. Custom-built home

Definition: A house that is designed and constructed according to the buyer's specific requirements.

3. Take matters into one's own hands

Definition: To personally take control of a situation instead of relying on others.

4. Budget-conscious decision

Definition: A financially careful or cost-aware choice made to stay within a certain spending limit.

2. Do you think a city's buildings affect its vibe or atmosphere?

Sample Answer (Band 7+):

Absolutely. The architecture of a city plays a major role in shaping its identity and vibe. For example, Gothic cathedrals give a city a historic and majestic feel, while modern glass skyscrapers create a fast-paced, business-oriented atmosphere. Buildings influence how people interact with their surroundings and even how they feel emotionally.

COLLOCATIONS + DEFINITIONS:

1. City vibe / urban vibe

Definition: The overall mood or feeling one gets from the city environment.

2. Architectural character

Definition: The distinct and recognizable features of a city's buildings and design.

3. Sense of place

Definition: The unique qualities that give an area its identity and emotional impact.

4. Visually striking architecture

Definition: Building designs that are eye-catching and leave a strong visual impression.

3. Should old buildings be preserved?

Sample Answer (Band 7+):

Yes, preserving old buildings is essential because they carry historical and cultural significance. They connect us to our roots and tell stories of the past. Many also feature craftsmanship that is rarely seen today. Moreover, they attract tourists and contribute to the cultural richness of a city.

COLLOCATIONS + DEFINITIONS:

1. Preserve historical landmarks

Definition: To protect and maintain old buildings that have cultural or historical value.

2. Architectural heritage

Definition: The collective value of historical buildings and styles passed through generations.

3. Cultural treasure

Definition: Something, such as an old building, that holds great importance for a society's culture.

4. Stand the test of time

Definition: To remain valuable or intact over a long period.

4. What would people normally consider when they rent or buy a house or an apartment?

Sample Answer (Band 7+):

When renting or buying a property, people usually look at location, price, size, and nearby amenities. Safety, transportation links, and the general condition of the building also play a key role. Some consider resale value or rental yield if they see it as an investment.

COLLOCATIONS + DEFINITIONS:

1. Prime location

Definition: A highly desirable area, often close to shops, transport, or city centers.

2. Rental yield

Definition: The amount of income generated by a property as a percentage of its cost.

3. Move-in ready

Definition: A property that is in good condition and doesn’t require any work before living in it.

4. Curb appeal

Definition: The visual attractiveness of a property when viewed from the street.

@TOPIC_BASED_VOC
ABULARY

PART 3 SAMPLE ANSWERS:

1. What are the consequences of the decrease of population in the countryside?

Sample Answer (Band 7+):

The decline in rural population can have far-reaching consequences. For one, it leads to a labour shortage in farming and local industries, which affects food production and the rural economy. Essential services like schools and hospitals may shut down due to low demand, forcing the remaining residents to travel long distances. Additionally, migration to urban areas causes overcrowding in cities while leaving the countryside economically stagnant and culturally weakened. This also results in an ageing population and a loss of community spirit.

COLLOCATIONS – DEFINITIONS:

1. **labour shortage** – A lack of available workers for necessary jobs.
2. **essential services** – Basic public services such as healthcare, education, or transport.
3. **urban overcrowding** – A situation where too many people live in urban areas, causing congestion.
4. **economically stagnant** – Not growing or progressing in economic terms.
5. **culturally hollow** – Lacking depth or richness in traditions and cultural identity.
6. **population drain** – A slow or steady loss of residents from a region.
7. **migration to urban areas** – The movement of people from rural regions to cities.
8. **declining birth rates** – A reduction in the number of births within a population.
9. **ageing population** – A demographic pattern where the majority of people are elderly.
10. **loss of community spirit** – The weakening of social bonds and mutual support in a group.

2. What kinds of places do people like to visit in the countryside?

Sample Answer (Band 7+):

People are often attracted to the countryside for its natural beauty and peaceful surroundings. Scenic landscapes like mountains, rivers, and meadows offer a relaxing escape from city life. Many visitors enjoy staying at rural retreats where they can experience traditional lifestyles and local culture. Organic farms and handicraft markets are also popular, especially among tourists seeking authentic experiences. For eco-conscious travelers, countryside areas are ideal for eco-tourism and nature-based activities.

COLLOCATIONS – DEFINITIONS:

1. **natural beauty and tranquility** – Peaceful and visually pleasing elements of nature.
2. **scenic landscapes** – Visually attractive natural areas like mountains, lakes, or valleys.
3. **rural retreat** – A peaceful place in the countryside to relax and unwind.
4. **traditional lifestyles** – Long-standing cultural ways of life passed down over time.
5. **organic farms** – Farms using natural methods without synthetic chemicals.

6. **handicraft markets** – Markets where handmade cultural products are sold.
7. **cultural heritage sites** – Important places preserving historical or cultural significance.
8. **countryside getaway** – A short trip to a rural area for relaxation and refreshment.
9. **peaceful environment** – A calm, quiet setting with little noise or stress.
10. **eco-tourism destination** – A place promoting responsible travel to natural areas.

1. Why do people like to share photos on social media?

Sample Answer (Band 7+):

Many people enjoy sharing photos on social media because it's a way to express themselves and stay connected with others. Through photos, they can share moments from their lives, achievements, or travels. It also provides a sense of validation when others react with likes and comments. In addition, for some, it’s a form of digital storytelling or personal branding. Overall, it allows users to document their lives in real-time and feel a sense of belonging in the online community.

COLLOCATIONS – DEFINITIONS:

1. **self-expression** – The act of showing one's thoughts, feelings, or personality.
2. **digital storytelling** – Sharing experiences or messages using images and multimedia online.
3. **personal branding** – Promoting oneself through consistent online identity and image.
4. **online presence** – The visibility of a person on the internet, especially on social platforms.
5. **social validation** – The approval or support from others in a social context, often through likes.
6. **emotional connection** – A bond created by sharing personal or meaningful content.
7. **real-time sharing** – Posting content immediately as it happens.
8. **visual content** – Images, photos, or videos shared on digital platforms.
9. **social interaction** – Engaging and communicating with others on social media.
10. **sense of community** – Feeling of belonging to a group of people with shared interests.

2. On what occasions do most people take photos?

Sample Answer (Band 7+):

People usually take photos during special occasions such as birthdays, weddings, and holidays. These events are meaningful and worth capturing for future memories. Apart from that, many take photos when travelling or attending concerts, festivals, or family gatherings. Nowadays, even small moments like a nice meal or a walk in the park can be photographed, especially with the convenience of smartphones. Capturing these moments helps people preserve memories and share joy with others.

COLLOCATIONS – DEFINITIONS:

1. **special occasions** – Important events or celebrations in life.
2. **family gatherings** – Events where family members come together socially.
3. **holiday snapshots** – Informal photos taken during vacation or travel.
4. **everyday moments** – Ordinary, daily events that people may want to remember.
5. **capture memories** – To take photos in order to remember moments.
6. **life events** – Significant moments in a person's life, like graduation or marriage.
7. **photo opportunities** – Moments that are perfect for taking pictures.
8. **travel experiences** – Events and sights encountered while travelling.
9. **celebratory moments** – Happy or festive times that people often document.
10. **smartphone photography** – Taking pictures using mobile phones.

@TOPIC_BASED_VOCABULARY

PART 3 SAMPLE ANSWERS:

1. What's the difference between males and females in terms of expressing their feelings?

Sample Answer (Band 7+):

In general, females tend to be more emotionally articulate and comfortable with verbalising their feelings, while males are often more reserved or adopt a stoic approach. This difference is partly due to social conditioning and cultural expectations. In many societies, men are encouraged to keep their emotions in check, whereas women are seen as more open to emotional disclosure. However, individual personality and upbringing also play a significant role, so these tendencies should not be seen as universal truths.

COLLOCATIONS – DEFINITIONS:

1. **emotionally articulate** – Able to express feelings clearly and effectively.
2. **stoic approach** – A way of handling emotions by not showing them outwardly.
3. **social conditioning** – The process by which people learn behaviours accepted by society.
4. **keep emotions in check** – To control or restrain one's feelings.
5. **emotional disclosure** – The act of openly sharing personal emotions.

2. Who tends to show their feelings more openly, adults or children?

Sample Answer (Band 7+):

I believe children generally show their feelings more openly. They tend to wear their hearts on their sleeves and react spontaneously without worrying about social norms or how others might judge them. Adults, on the other hand, often suppress their emotions or mask their true feelings, either to appear professional or to avoid conflict. That being said, emotionally intelligent adults can still express their feelings openly but usually in a more measured and controlled manner.

COLLOCATIONS – DEFINITIONS:

1. **wear one's heart on one's sleeve** – To openly display emotions.
2. **react spontaneously** – To respond in a natural and unplanned way.
3. **social norms** – Unwritten rules of behaviour considered acceptable in a society.
4. **suppress emotions** – To prevent oneself from expressing feelings.
5. **mask true feelings** – To hide one's real emotions.

3. Do you think it is good or bad for people to show feelings openly?

Sample Answer (Band 7+):

I think it is generally good for people to express their feelings openly, as it promotes emotional well-being and strengthens interpersonal relationships. Clear communication of emotions can reduce misunderstandings and prevent emotional bottling, which often leads to stress or resentment. However, in certain contexts, such as formal workplaces, it is wise

to exercise emotional restraint to maintain professional decorum. In short, openness is valuable, but balance is key.

COLLOCATIONS – DEFINITIONS:

1. **emotional well-being** – A state of positive mental and emotional health.
2. **interpersonal relationships** – Connections and interactions between people.
3. **emotional bottling** – The act of keeping emotions inside without expressing them.
4. **exercise emotional restraint** – To deliberately control emotional expression.
5. **professional decorum** – Appropriate and respectful behaviour in a professional environment.

PART 3 SAMPLE ANSWERS:

1. At what age can children make decisions on their own?

Sample Answer (Band 7+):

I think children can start making simple decisions around the age of 7 or 8, such as choosing their clothes or deciding which hobby to pursue. However, the ability to make more significant decisions, like managing money or planning their studies, usually develops in the teenage years when they gain better critical thinking skills and a sense of responsibility. Of course, the exact age depends on the child's maturity and upbringing.

COLLOCATIONS – DEFINITIONS:

1. **simple decisions** – Choices that do not have serious consequences.
2. **critical thinking skills** – The ability to analyse information and make logical judgments.
3. **sense of responsibility** – An awareness of one's duty and the consequences of actions.
4. **emotional maturity** – The ability to manage emotions and act appropriately in various situations.
5. **upbringing** – The way a child is raised and educated by parents or guardians.

2. What decisions can children make by themselves?

Sample Answer (Band 7+):

Children can make everyday decisions such as what games to play, what clothes to wear, or which books to read. As they grow older, they can also decide on extracurricular activities, how to spend their pocket money, and even small contributions to family decisions. These choices help them build independence and decision-making skills, which will be valuable in adulthood.

COLLOCATIONS – DEFINITIONS:

1. **everyday decisions** – Routine choices made regularly in daily life.
2. **extracurricular activities** – School-related activities outside normal lessons, such as sports or music.
3. **pocket money** – A small amount of money given to children by parents for personal spending.
4. **build independence** – To develop the ability to act and think without relying on others.
5. **decision-making skills** – The ability to choose between different options effectively.

@TOPIC_BASED_VOCABULARY

PART 3 SAMPLE ANSWERS:

1. Why is it that many people today don't do enough healthy activities?

Sample Answer (Band 7+):

One major reason is the increasingly sedentary lifestyle caused by modern work environments. Many people spend long hours sitting in front of computers, leaving little time or energy for exercise. Additionally, the convenience of fast food and digital entertainment has reduced the need for physical activity in daily life. Stress and lack of motivation also play a role in discouraging people from staying active.

COLLOCATIONS – DEFINITIONS:

1. **sedentary lifestyle** – A way of living with little or no physical activity.
2. **modern work environments** – Current workplaces, often involving technology and minimal movement.
3. **digital entertainment** – Online or electronic forms of leisure, such as gaming or streaming.
4. **lack of motivation** – A shortage of willingness or drive to do something.
5. **stay active** – To regularly engage in physical movement or exercise.

2. Is it hard for modern people to live a healthy lifestyle?

Sample Answer (Band 7+):

Yes, it can be challenging because modern life often prioritises convenience over health. Processed food is widely available, and many jobs require minimal movement. Furthermore, people's busy schedules make it difficult to cook nutritious meals or engage in regular exercise. However, with proper planning and self-discipline, a healthy lifestyle is still achievable.

COLLOCATIONS – DEFINITIONS:

1. **prioritise convenience** – To choose easier options instead of more time-consuming but healthier ones.
2. **processed food** – Food that has been altered from its natural state for preservation or taste.
3. **nutritious meals** – Meals that are healthy and provide essential nutrients.
4. **busy schedules** – Having many tasks and little free time.
5. **self-discipline** – The ability to control one's actions and make responsible choices.

3. What can parents do to help improve their children's health awareness?

Sample Answer (Band 7+):

Parents can set a good example by maintaining healthy habits themselves, such as eating balanced meals and exercising regularly. They should also educate their children about

nutrition and the importance of physical activity. Encouraging outdoor play and limiting screen time can significantly improve children's health awareness from an early age.

COLLOCATIONS – DEFINITIONS:

1. **set a good example** – To act in a way that others should follow.
2. **healthy habits** – Regular behaviours that are beneficial for health.
3. **balanced meals** – Meals containing the right proportions of nutrients.
4. **outdoor play** – Physical activities done outside.
5. **limit screen time** – To reduce the amount of time spent on electronic devices.

4. Do schools have the responsibility to provide health education?

Sample Answer (Band 7+):

Absolutely. Schools play a vital role in shaping children's habits and values. Health education not only teaches students about nutrition and exercise but also covers mental well-being and hygiene. By integrating these topics into the curriculum, schools can equip young people with the knowledge and skills to make healthier choices throughout their lives.

COLLOCATIONS – DEFINITIONS:

1. **play a vital role** – To be very important in achieving something.
2. **shape children's habits** – To influence the way children behave regularly.
3. **mental well-being** – The state of being mentally healthy and balanced.
4. **integrate into the curriculum** – To include something as part of school subjects.
5. **make healthier choices** – To select options that are better for one's health.

5. Where can people find information about keeping healthy?

Sample Answer (Band 7+):

People can access reliable health information from various sources, such as government health websites, medical professionals, and reputable books. Social media and online platforms can also be useful, provided the content comes from credible experts. Community health workshops and fitness classes are additional ways to learn about staying healthy.

COLLOCATIONS – DEFINITIONS:

1. **reliable health information** – Accurate and trustworthy health-related facts.
2. **medical professionals** – Qualified doctors, nurses, and healthcare workers.
3. **credible experts** – Knowledgeable people whose advice is trustworthy.
4. **community health workshops** – Local events that teach people about health topics.
5. **fitness classes** – Organised exercise sessions led by instructors.

6. How do today's people keep healthy?

Sample Answer (Band 7+):

Many people today keep healthy by combining regular exercise with balanced nutrition. They join gyms, practise yoga, or take part in outdoor activities like cycling and hiking. Some also use fitness apps to track their progress and follow personalised meal plans. Mental health is increasingly recognised as part of overall well-being, so practices like meditation and mindfulness are becoming more common.

COLLOCATIONS – DEFINITIONS:

1. **balanced nutrition** – Eating a variety of foods in the right proportions for good health.
2. **outdoor activities** – Physical exercises done outside, such as hiking or running.
3. **track progress** – To monitor improvements over time.
4. **personalised meal plans** – Diet programs designed for an individual's needs.
5. **overall well-being** – The general state of being healthy in body and mind.

@TOPIC_BASED_VOCABULARY

PART 3 SAMPLE ANSWERS:

1. What happened to the farmers' income during the pandemic?

Sample Answer (Band 7+):

During the pandemic, many farmers experienced a sharp decline in income due to supply chain disruptions and reduced demand from restaurants and hotels. Transportation restrictions made it difficult to sell their produce, and in some cases, crops were left to rot in the fields. However, farmers who adapted to direct-to-consumer sales or online platforms managed to maintain a steady income.

COLLOCATIONS – DEFINITIONS:

1. sharp decline – A sudden and significant decrease.
2. supply chain disruptions – Interruptions in the process of moving goods from producers to consumers.
3. reduced demand – A decrease in the desire or need for products.
4. direct-to-consumer sales – Selling goods directly to buyers without intermediaries.
5. steady income – A regular and reliable source of money.

2. How do people grow plants in cities?

Sample Answer (Band 7+):

In cities, people often grow plants using space-saving methods such as balcony gardening, rooftop gardens, and vertical farming. Some also participate in community gardens, where residents share land and resources. Modern technology, like hydroponics, allows plants to be cultivated indoors without soil, making urban gardening more accessible.

COLLOCATIONS – DEFINITIONS:

1. space-saving methods – Techniques that require minimal physical area.
2. balcony gardening – Growing plants in pots or containers on balconies.
3. community gardens – Shared spaces where people collectively grow plants.
4. vertical farming – Growing crops in stacked layers to save space.
5. hydroponics – A method of growing plants without soil using nutrient solutions.

3. Do you think farming is important?

Sample Answer (Band 7+):

Absolutely. Farming is essential for food security, providing the raw materials we need for survival. It also supports millions of jobs and plays a vital role in a country's economy. Beyond that, farming maintains rural communities and preserves agricultural traditions that have cultural significance.

COLLOCATIONS – DEFINITIONS:

1. food security – The availability of sufficient, safe, and nutritious food.
2. raw materials – Basic substances used to make goods.

3. vital role – An extremely important function or position.
4. rural communities – Populations living in countryside areas.
5. cultural significance – The importance something has in relation to traditions or heritage.

4. What do you think of a job of a farmer?
Sample Answer (Band 7+):
Being a farmer is a demanding yet rewarding profession. It requires hard work, resilience, and a deep understanding of nature. While it can be physically exhausting, the satisfaction of producing food and contributing to society makes it highly respectable. Unfortunately, it is often undervalued in modern economies.

COLLOCATIONS – DEFINITIONS:

1. demanding profession – A job that requires significant effort and dedication.
2. resilience – The ability to recover quickly from difficulties.
3. deep understanding of nature – Extensive knowledge about natural processes.
4. physically exhausting – Very tiring for the body.
5. highly respectable – Considered to be worthy of admiration.

5. Is there any difference between the way food is produced nowadays and the way it was done in the past?
Sample Answer (Band 7+):
Yes, there are significant differences. In the past, food production was largely manual and relied on traditional tools. Nowadays, modern farming uses advanced machinery, genetic modification, and automated irrigation systems, which increase efficiency. However, some argue that older methods were more sustainable and produced healthier food.

COLLOCATIONS – DEFINITIONS:

1. significant differences – Noticeable and important variations.
2. traditional tools – Old-fashioned implements used in farming.
3. genetic modification – Altering the DNA of plants or animals to improve traits.
4. automated irrigation systems – Technology that waters crops without manual effort.
5. more sustainable – Less harmful to the environment over time.

6. What are the differences between traditional and modern agriculture?
Sample Answer (Band 7+):
Traditional agriculture often relies on manual labour, organic fertilisers, and natural pest control, while modern agriculture uses machinery, synthetic fertilisers, and chemical pesticides. Modern methods can produce larger yields but may harm the environment, whereas traditional methods are more eco-friendly but less efficient.

COLLOCATIONS – DEFINITIONS:

1. manual labour – Physical work done by people rather than machines.
2. organic fertilisers – Natural substances used to enrich soil.
3. natural pest control – Using natural predators or methods to manage pests.
4. synthetic fertilisers – Man-made substances to improve plant growth.
5. larger yields – Bigger quantities of crops produced.

7. Do people like to grow their own vegetables in your country?
Sample Answer (Band 7+):
Yes, especially in rural areas and among older generations. People grow vegetables to save money, ensure freshness, and enjoy healthier produce. In recent years, urban gardening has also gained popularity as people become more health-conscious and environmentally aware.

COLLOCATIONS – DEFINITIONS:

1. save money – To reduce expenses.
2. ensure freshness – To guarantee that food is fresh.
3. healthier produce – Fruits and vegetables that are better for health.
4. urban gardening – Growing plants in cities.
5. health-conscious – Being aware of and concerned about health.

8. Do you think it's good to let kids learn how to plant?
Sample Answer (Band 7+):
Definitely. Teaching kids to plant helps them develop patience, responsibility, and an appreciation for nature. It also improves their understanding of where food comes from, which can encourage healthier eating habits. Such activities can be both educational and enjoyable.

COLLOCATIONS – DEFINITIONS:

1. develop patience – To learn how to wait calmly for results.
2. take responsibility – To be accountable for tasks or actions.
3. appreciation for nature – Recognising the value of the natural environment.
4. healthier eating habits – Better food choices for well-being.
5. educational and enjoyable – Both informative and fun.

@TOPIC_BASED_VOCABULARY

PART 3 SAMPLE ANSWERS

1. Are people born clever or need to learn to be clever?

Sample Answer (Band 7+):

I believe intelligence is a combination of both genetic factors and learning experiences. While some people are naturally gifted due to their genetic makeup, education, environment, and personal effort play a significant role in developing one's abilities. In other words, natural talent can be enhanced through continuous learning and practice.

COLLOCATIONS – DEFINITIONS:

1. **genetic factors** – Traits inherited from parents through DNA.
2. **naturally gifted** – Having an inborn talent or ability.
3. **genetic makeup** – The combination of genes that determines a person's traits.
4. **play a significant role** – To be important in influencing a result.
5. **continuous learning** – Ongoing process of acquiring knowledge or skills.

2. Why are some children more intelligent than others?

Sample Answer (Band 7+):

Several reasons can explain this difference. Genetics, quality of education, family environment, and early childhood stimulation all contribute to a child's intelligence. Children who have access to books, educational games, and supportive parents often develop stronger cognitive skills. Nutrition and health also play a vital role in brain development.

COLLOCATIONS – DEFINITIONS:

1. **quality of education** – The standard or effectiveness of teaching and learning.
2. **family environment** – The home setting and relationships that influence a child.
3. **early childhood stimulation** – Activities that encourage brain growth in young children.
4. **cognitive skills** – Abilities related to thinking, learning, and understanding.
5. **brain development** – The process by which the brain grows and matures.

3. Who plays a more important role in a child's development, teachers or parents?

Sample Answer (Band 7+):

Both are crucial, but parents generally have a greater influence because they are involved from birth and shape a child's values and attitudes. Teachers, however, provide academic knowledge and help children develop social skills. Ideally, both should work together to give children a well-rounded upbringing.

COLLOCATIONS – DEFINITIONS:

1. **shape values and attitudes** – To influence moral beliefs and ways of thinking.
2. **academic knowledge** – Information and skills learned in school.

3. **develop social skills** – Improve the ability to interact effectively with others.
4. **well-rounded upbringing** – A balanced development in various aspects of life.
5. **work together** – Collaborate to achieve a common goal.

4. Do you think smart people tend to be selfish?
Sample Answer (Band 7+):
Not necessarily. While some intelligent people may focus on their own goals, many use their abilities to help others and contribute to society. Selfishness is more related to personality traits than intelligence. In fact, empathy and wisdom often grow alongside true intelligence.

COLLOCATIONS – DEFINITIONS:

1. **focus on their own goals** – Concentrate on personal ambitions.
2. **contribute to society** – Do things that benefit the community.
3. **personality traits** – Characteristics that define how a person behaves.
4. **true intelligence** – Deep understanding that goes beyond academic ability.
5. **grow alongside** – Develop at the same time as something else.

5. Do you think smart people are happy?
Sample Answer (Band 7+):
Not always. Intelligence can help solve problems and achieve success, but it may also lead to overthinking and stress. Happiness depends on emotional intelligence, life balance, and personal relationships, not just IQ. Some highly intelligent people may struggle to find contentment.

COLLOCATIONS – DEFINITIONS:

1. **overthinking** – Thinking too much about something, often causing stress.
2. **emotional intelligence** – The ability to understand and manage emotions.
3. **life balance** – A healthy distribution of time between work and personal life.
4. **personal relationships** – Connections with family, friends, or partners.
5. **find contentment** – Achieve a state of satisfaction and happiness.

6. Do you think smart people are happier than others?
Sample Answer (Band 7+):
Not necessarily. Happiness is subjective and influenced by factors such as health, relationships, and personal values. While intelligence may bring opportunities, it doesn't guarantee happiness. In fact, being overly analytical can sometimes make it harder to enjoy life's simple pleasures.

COLLOCATIONS – DEFINITIONS:

1. **happiness is subjective** – The meaning of happiness varies from person to person.

2. **personal values** – Principles or beliefs that guide behaviour.
3. **bring opportunities** – Create chances for success or improvement.
4. **overly analytical** – Thinking too much or too critically about situations.
5. **life's simple pleasures** – Small everyday things that bring joy.

7. Do you think society needs people with different types of intelligence?
Sample Answer (Band 7+):
Absolutely. Society benefits from a variety of intelligences, including logical, creative, emotional, and practical skills. Each type contributes to solving different problems and making communities stronger. Diversity in intelligence ensures that complex challenges can be approached from multiple perspectives.

COLLOCATIONS – DEFINITIONS:

1. **variety of intelligences** – Different forms of mental abilities.
2. **logical skills** – The ability to think clearly and reason.
3. **creative skills** – The ability to generate new and original ideas.
4. **multiple perspectives** – Different ways of looking at a situation.
5. **complex challenges** – Difficult problems that require advanced thinking.

8. Do you think smart people are not good at certain things?
Sample Answer (Band 7+):
Yes, intelligence in one area doesn't mean excellence in all areas. For example, a highly intelligent scientist might struggle with practical tasks or social interactions. People have strengths and weaknesses, and being smart doesn't eliminate the need for teamwork or learning new skills.

COLLOCATIONS – DEFINITIONS:

1. **excellence in all areas** – Being outstanding in every field.
2. **practical tasks** – Everyday hands-on activities.
3. **social interactions** – Communication and relationships with others.
4. **strengths and weaknesses** – Things a person is good or bad at.
5. **teamwork** – Collaborative effort to achieve a goal.

1. Do you think it's a good thing that more and more people are using digital payment?

Sample Answer (Band 7+):

Yes, I think it's a positive trend because digital payments are fast, convenient, and secure. They reduce the need to carry cash and allow for easy tracking of expenses. However, people should also be aware of online security risks and make sure they use trusted platforms.

COLLOCATIONS – DEFINITIONS:

1. **positive trend** – A development that has beneficial effects.
2. **fast and convenient** – Quick and easy to use.
3. **secure transaction** – A safe exchange of money or data.
4. **track expenses** – Monitor how money is spent.
5. **trusted platform** – A reliable and safe online service.

2. What are the advantages and disadvantages of using credit cards?

Sample Answer (Band 7+):

Credit cards offer convenience and can help build a good credit history if used responsibly. They also provide rewards such as cashback or travel points. On the downside, overspending can lead to debt, and interest rates on unpaid balances are often high.

COLLOCATIONS – DEFINITIONS:

1. **build credit history** – Establish a financial record showing how loans are repaid.
2. **cashback rewards** – Money returned as a percentage of spending.
3. **travel points** – Reward points that can be used for flights or hotels.
4. **overspending** – Spending more than one can afford.
5. **high interest rates** – Large percentage fees charged on borrowed money.

3. Why do people rarely use cash now?

Sample Answer (Band 7+):

People prefer digital transactions because they are faster, safer, and often more hygienic, especially after the pandemic. Many shops now encourage cashless payments to save time and reduce the risk of theft. In addition, online shopping has made cash less necessary.

COLLOCATIONS – DEFINITIONS:

1. **digital transactions** – Payments made electronically.
2. **cashless payments** – Buying goods without using physical money.
3. **reduce the risk of theft** – Lower the chances of money being stolen.
4. **online shopping** – Buying goods or services over the internet.
5. **encourage customers** – Motivate people to do something.

4. When do children begin to comprehend the value of money?

Sample Answer (Band 7+):

Children usually start to understand the value of money around the age of six or seven, when they begin handling small amounts and making simple purchases. Teaching them about saving and budgeting at this stage can lay the foundation for good financial habits in adulthood.

COLLOCATIONS – DEFINITIONS:

1. **comprehend the value** – Understand the importance or worth of something.
2. **make simple purchases** – Buy small or basic items.
3. **financial habits** – Regular ways of managing money.
4. **lay the foundation** – Create the basis for something in the future.
5. **in adulthood** – During the stage of being an adult.

5. Should parents reward children with money?

Sample Answer (Band 7+):

It can be effective if done in moderation. Giving money for completing chores or achieving goals can teach children the link between effort and reward. However, over-reliance on money as a motivator might reduce intrinsic motivation, so other forms of encouragement should also be used.

COLLOCATIONS – DEFINITIONS:

1. **in moderation** – Not too much, within reasonable limits.
2. **achieving goals** – Successfully reaching set objectives.
3. **link between effort and reward** – The connection between work and compensation.
4. **intrinsic motivation** – Desire to do something for its own sake.
5. **forms of encouragement** – Different ways to motivate someone.

6. Is it good and necessary to teach children to save money?

Sample Answer (Band 7+):

Absolutely. Saving money teaches children discipline, patience, and financial responsibility. It also prepares them for unexpected expenses in the future. Parents can make this lesson practical by giving them piggy banks or opening a small savings account in their name.

COLLOCATIONS – DEFINITIONS:

1. **financial responsibility** – The ability to manage money wisely.
2. **unexpected expenses** – Costs that occur suddenly and without warning.
3. **make a lesson practical** – Apply learning in a real-life way.
4. **piggy bank** – A container used to save coins, often for children.
5. **savings account** – A bank account for keeping money securely.

1. Is it good for children to make noise?
Sample Answer (Band 7+):
In moderation, yes. Making noise can be a sign of energy, curiosity, and healthy social interaction among children. It often reflects their creativity and willingness to explore. However, constant loud noise can disturb others, so it's important to teach children when and where it is appropriate.

COLLOCATIONS – DEFINITIONS:

1. **in moderation** – Within reasonable and acceptable limits.
2. **healthy social interaction** – Positive communication and play with others.
3. **reflect creativity** – Show imaginative and original thinking.
4. **disturb others** – Interrupt or bother people.
5. **appropriate behaviour** – Actions suitable for a certain time or place.

2. Should children not be allowed to make noise under any circumstances?
Sample Answer (Band 7+):
I don't think complete restriction is necessary. Children need freedom to express themselves, but there should be boundaries in places like libraries, hospitals, or during formal events. The goal is to help them understand the difference between playful noise and disruptive noise.

COLLOCATIONS – DEFINITIONS:

1. **complete restriction** – Total prohibition without exceptions.
2. **freedom to express themselves** – The ability to show thoughts, feelings, or energy.
3. **formal events** – Official or serious gatherings.
4. **playful noise** – Sound made during fun and games.
5. **disruptive noise** – Loud sounds that interrupt activities or concentration.

3. How can people consider others' feelings when chatting in public?
Sample Answer (Band 7+):
They should keep their voices at a reasonable level, avoid using offensive language, and be aware of their surroundings. If discussing private matters, it's better to move to a quieter, more private space to avoid disturbing others.

COLLOCATIONS – DEFINITIONS:

1. **reasonable level** – A moderate amount or volume.
2. **offensive language** – Words that might upset or insult others.
3. **be aware of surroundings** – Pay attention to what is happening nearby.
4. **private matters** – Personal or confidential topics.
5. **quieter space** – A location with less noise.

4. What type of noise do you come across in your daily life?
Sample Answer (Band 7+):
In my daily life, I often hear traffic noise, construction sounds, and background chatter in public places. At home, there might be noise from household appliances or neighbours. These sounds have become part of the modern urban environment.

COLLOCATIONS – DEFINITIONS:

1. **traffic noise** – Sounds from cars, buses, and other vehicles.
2. **construction sounds** – Noise from building or roadwork activities.
3. **background chatter** – Low-level talking in the surroundings.
4. **household appliances** – Machines used at home, such as washing machines.
5. **urban environment** – Life and surroundings in a city.

5. Are cities becoming noisier?
Sample Answer (Band 7+):
Yes, due to urbanisation, increased traffic, and constant construction, cities are becoming noisier. The growth of population and commercial activities has led to higher noise levels, which can affect people's health and well-being over time.

COLLOCATIONS – DEFINITIONS:

1. **urbanisation** – The process of more people living in cities.
2. **increased traffic** – A rise in the number of vehicles on the road.
3. **commercial activities** – Business operations and trade.
4. **noise levels** – The intensity or volume of sound.
5. **affect well-being** – Influence a person's mental and physical health.

6. Where is there louder noise, in cities or in the countryside?
Sample Answer (Band 7+):
Cities are generally louder because of constant traffic, construction, and human activity. The countryside is usually quieter, with natural sounds like birdsong or wind, although farm machinery can sometimes be noisy.

COLLOCATIONS – DEFINITIONS:

1. **human activity** – Actions and movements of people.
2. **natural sounds** – Noises from nature, not machines.
3. **birdsong** – The sound made by birds.
4. **farm machinery** – Equipment used for agricultural purposes.
5. **generally quieter** – Usually producing less noise.

7. Do you mind noises?

Sample Answer (Band 7+):

It depends on the type and duration. I don't mind natural sounds or short bursts of noise, but constant loud noises like traffic or drilling can be irritating and stressful over time.

COLLOCATIONS – DEFINITIONS:

1. **short bursts of noise** – Brief periods of loud sound.
2. **constant loud noises** – Persistent, high-volume sounds.
3. **traffic or drilling** – Common sources of urban noise.
4. **be irritating** – Cause mild annoyance.
5. **over time** – Gradually, as time passes.

8. How do people usually respond to noises in your country?

Sample Answer (Band 7+):

Responses vary. Some people ignore noise, considering it part of daily life, while others take action by complaining to authorities or using earplugs. In general, tolerance depends on the individual's environment and personality.

COLLOCATIONS – DEFINITIONS:

1. **ignore noise** – Pay no attention to sound.
2. **complain to authorities** – Report an issue to official bodies.
3. **use earplugs** – Wear devices in the ears to block sound.
4. **tolerance level** – How much discomfort someone can endure.
5. **part of daily life** – Something normal or regular in one's routine.

1. Do most people in your country prefer to buy clothes online or at the street market?

Sample Answer (Band 7+):

In my country, younger people increasingly prefer to buy clothes online because it is more convenient and time-saving. However, many older generations still like to shop at street markets where they can bargain and check the quality of fabrics directly. Overall, both options are popular, but online shopping is gradually becoming more dominant.

COLLOCATIONS – DEFINITIONS:

1. **time-saving option** – Something that helps to save time.
2. **street market shopping** – Buying clothes in open-air or local markets.
3. **check the quality** – Examine how good or durable something is.
4. **increasingly prefer** – Show a stronger choice over time.
5. **bargain for a better price** – Negotiate to pay less.

2. Do you think people would use clothing to show their identity?

Sample Answer (Band 7+):

Yes, clothing is often used as a way to express personal identity. For instance, traditional outfits can reflect cultural heritage, while modern and trendy clothes may show an individual's personality or social group. In fact, fashion has become a silent language that communicates who we are without words.

COLLOCATIONS – DEFINITIONS:

1. **express personal identity** – Show who you are through your choices.
2. **reflect cultural heritage** – Represent one's traditions and history.
3. **modern and trendy clothes** – Stylish and fashionable clothing.
4. **social group belonging** – Being part of a particular community.
5. **silent language of fashion** – Communicating through clothing instead of words.

3. What are the differences between cheap and expensive clothes?

Sample Answer (Band 7+):

Cheap clothes are usually mass-produced with lower-quality fabrics, while expensive clothes are often made from high-quality materials and have unique designs. Expensive clothing tends to last longer and gives people a sense of confidence, whereas cheap clothes are more affordable and widely accessible.

COLLOCATIONS – DEFINITIONS:

1. **mass-produced clothes** – Items made in large numbers using machines.
2. **lower-quality fabrics** – Materials that are not durable or comfortable.
3. **high-quality materials** – Strong, durable, and comfortable fabrics.
4. **unique design** – A special style that is not common.

5. **widely accessible** – Easy for many people to buy or use.

4. Why do people prefer to buy rather expensive clothes?
Sample Answer (Band 7+):
Many people prefer expensive clothes because they believe they provide better quality, comfort, and durability. Wearing branded clothes can also boost confidence and create a positive impression in social or professional settings. Additionally, some people buy costly items to show their wealth and social status.

COLLOCATIONS – DEFINITIONS:

1. **branded clothes** – Clothing made by famous fashion companies.
2. **boost confidence** – Increase self-belief and assurance.
3. **positive impression** – A good opinion formed by others.
4. **social status symbol** – Something that shows a person's position in society.
5. **long-lasting durability** – Ability to be used for a long time without damage.

5. Why do some people care so much about their clothing?
Sample Answer (Band 7+):
Some people care deeply about clothing because appearance creates the first impression. Fashion-conscious individuals use clothing to express their personality and stand out from others. In modern society, looking stylish can also affect career opportunities and social relationships.

COLLOCATIONS – DEFINITIONS:

1. **create the first impression** – Influence how people see you at first.
2. **fashion-conscious individuals** – People who pay close attention to style.
3. **express personality** – Show one's character through clothes.
4. **stand out from others** – Be noticed as different or unique.
5. **stylish appearance** – Looking fashionable and attractive.

6. Do you think young people know more about fashion and are better at dressing up than elderly people?

Sample Answer (Band 7+):

I think young people know more about fashion because they follow trends on social media and are influenced by celebrities. They also experiment more with different styles and colors. Elderly people, however, usually prioritize comfort and prefer timeless, classic styles rather than modern trends.

COLLOCATIONS – DEFINITIONS:

1. **follow fashion trends** – Keep up with the latest styles.
2. **influenced by celebrities** – Affected by famous people's choices.
3. **experiment with styles** – Try out new and different clothing.
4. **prioritize comfort** – Value comfort over other factors.
5. **timeless classic style** – A fashion that never goes out of date.

@TOPIC_BASED_VOCABULARY

1. Which age group is the best at learning new things?
Sample Answer (Band 7+):
In my opinion, children and young adults are usually the best at learning new things because their brains are more flexible and adaptable. They can absorb knowledge quickly and are often more curious. However, adults can also learn effectively if they are motivated and have strong goals.

COLLOCATIONS – DEFINITIONS:

1. **flexible brain** – The ability of the brain to change and adapt.
2. **absorb knowledge** – Take in and understand information.
3. **naturally curious** – Having a strong desire to learn or know.
4. **lifelong learning** – Continuing to learn throughout life.
5. **motivated learners** – People who are eager and determined to study.

2. What can be done to improve modern teaching methods?
Sample Answer (Band 7+):
To improve modern teaching methods, teachers should integrate technology into lessons, encourage interactive learning, and focus on critical thinking. Providing real-life examples and practical activities also helps students stay engaged and understand concepts more deeply.

COLLOCATIONS – DEFINITIONS:

1. **integrate technology** – Use digital tools in teaching.
2. **interactive learning** – Students actively participate in the process.
3. **critical thinking** – The ability to analyze and evaluate ideas.
4. **real-life examples** – Practical illustrations from everyday life.
5. **student engagement** – Keeping learners interested and involved.

3. What are the differences between online and face-to-face teaching?
Sample Answer (Band 7+):
Online teaching provides flexibility and convenience, while face-to-face teaching offers direct interaction and personal connection. Online classes are more accessible to a global audience, but traditional classrooms allow stronger communication, teamwork, and discipline.

COLLOCATIONS – DEFINITIONS:

1. **flexible learning** – Studying at your own pace and time.
2. **direct interaction** – Immediate communication between teacher and student.
3. **global accessibility** – Available to people around the world.
4. **personal connection** – Building strong relationships with others.
5. **classroom discipline** – Rules and order in a learning environment.

4. Which do you think is more important, practical skills or academic skills?
Sample Answer (Band 7+):
Both are important, but I believe practical skills are more useful in real life because they can be applied directly to work and problem-solving. Academic skills provide theoretical knowledge, but without practice, it may be difficult to succeed in today's world.

COLLOCATIONS – DEFINITIONS:

1. **practical application** – Using knowledge in real situations.
2. **theoretical knowledge** – Abstract or book-based learning.
3. **problem-solving ability** – Finding solutions to challenges.
4. **real-world experience** – Practical involvement outside the classroom.
5. **balanced education** – A mix of theory and practice.

5. Should teachers make lessons fun?
Sample Answer (Band 7+):
Yes, teachers should make lessons fun because it increases students' motivation and makes learning more enjoyable. Fun lessons often involve games, discussions, or creative activities, which improve attention and long-term memory.

COLLOCATIONS – DEFINITIONS:

1. **make learning enjoyable** – Create a pleasant study environment.
2. **increase motivation** – Encourage students to learn more.
3. **creative activities** – Using imagination in classroom tasks.
4. **long-term memory** – The ability to remember information for a long time.
5. **student participation** – Involvement of learners in class activities.

6. What kind of people are good at teaching?
Sample Answer (Band 7+):
Good teachers are usually patient, passionate, and empathetic. They understand students' needs and can explain difficult ideas in simple ways. Moreover, effective teachers are also flexible and open to using new methods.

COLLOCATIONS – DEFINITIONS:

1. **patient attitude** – Ability to stay calm with students.
2. **passionate educator** – A teacher who loves their profession.
3. **empathetic understanding** – Being able to feel and share others' emotions.
4. **explain complex ideas** – Make difficult topics clear.
5. **flexible teaching style** – Ability to adapt lessons to students' needs.

7. What qualities should teachers have?

Sample Answer (Band 7+):

Teachers should have qualities such as strong communication skills, creativity, and the ability to inspire students. They should also be well-prepared, organized, and willing to continue learning themselves.

COLLOCATIONS – DEFINITIONS:

1. **strong communication skills** – Ability to share ideas clearly.
2. **inspire students** – Motivate learners to do their best.
3. **well-prepared lessons** – Carefully planned teaching materials.
4. **organized approach** – A structured and systematic way of teaching.
5. **continuous self-improvement** – Always trying to develop new skills.

Topic 15: Beauty, Beautiful Things

1. What beautiful scenic spots are there in your country?
Sample Answer (Band 7+):
In my country, there are many scenic spots such as mountains, lakes, and historical sites. For example, national parks are famous for their breathtaking views and natural beauty. These places attract both local and international tourists every year.

COLLOCATIONS – DEFINITIONS:

1. **scenic spots** – Places with beautiful natural or cultural views.
2. **breathtaking views** – Extremely beautiful sights.
3. **natural beauty** – The attractiveness of nature.
4. **historical sites** – Places of cultural or historical importance.
5. **tourist attraction** – A place that draws visitors.

2. Why do many people go to scenic spots in person instead of just reading about them in books?
Sample Answer (Band 7+):
People prefer to visit scenic spots because personal experience is more memorable than just reading about them. Seeing nature or monuments in real life allows them to feel the atmosphere, take photos, and create lasting memories. Books can describe places, but they cannot replace the real experience.

COLLOCATIONS – DEFINITIONS:

1. **personal experience** – Direct involvement in something.
2. **lasting memories** – Experiences that stay in the mind for a long time.
3. **feel the atmosphere** – Sense the mood of a place.
4. **real-life experience** – Actually being present in a situation.
5. **replace the real experience** – Substitute for direct involvement.

3. Do people in your country prefer listening to music to appreciating paintings and literature?
Sample Answer (Band 7+):
Yes, in general, people prefer listening to music because it is more accessible and entertaining. Music can be enjoyed while working or traveling, while paintings and literature require more time and focus. However, there is still a group of people who love art galleries and reading novels.

COLLOCATIONS – DEFINITIONS:

1. **more accessible** – Easier to reach and enjoy.
2. **art appreciation** – Understanding and valuing artworks.

3. **literary works** – Writings such as novels, poems, or plays.
4. **cultural preference** – Choosing based on traditions and interests.
5. **entertainment value** – The enjoyment something provides.

4. Where do you think people usually come into contact with beautiful things?
Sample Answer (Band 7+):
People usually encounter beautiful things in nature, such as flowers, rivers, or sunsets. They also see beauty in art galleries, architecture, and even in everyday life, like a well-designed building or a kind gesture. Beauty can be found everywhere if people pay attention.

COLLOCATIONS – DEFINITIONS:

1. **come into contact with** – To experience or encounter something.
2. **art galleries** – Places where paintings and artworks are shown.
3. **well-designed architecture** – Beautiful and creative buildings.
4. **natural scenery** – Beautiful landscapes in nature.
5. **everyday beauty** – Ordinary things that look attractive.

5. Are there more beautiful things now than in the past?
Sample Answer (Band 7+):
I think both the past and present have their own beauty. In the past, there were untouched natural landscapes, while today we have modern architecture and advanced designs. Technology has created new forms of beauty, but we must also protect natural wonders from being destroyed.

COLLOCATIONS – DEFINITIONS:

1. **untouched landscapes** – Nature that has not been changed by humans.
2. **modern architecture** – Contemporary style of buildings.
3. **advanced designs** – Creative and innovative styles.
4. **new forms of beauty** – Different modern types of attractiveness.
5. **protect natural wonders** – Save beautiful natural places from harm.

6. Why do people create beautiful things?

Sample Answer (Band 7+):

People create beautiful things to express emotions, share ideas, and inspire others. Art, music, and design are ways for people to leave a legacy and make the world more enjoyable. Creating beauty also brings happiness and satisfaction to the creators themselves.

COLLOCATIONS – DEFINITIONS:

1. **express emotions** – Show feelings through actions or art.
2. **share ideas** – Communicate thoughts with others.
3. **inspire others** – Motivate or influence people positively.
4. **leave a legacy** – Create something meaningful for the future.
5. **artistic satisfaction** – The joy an artist feels after creating something.

Topic 16: Films

1. What are the differences between watching movies at home and in a cinema?
Sample Answer (Band 7+):
Watching movies at home is more comfortable and flexible because you can pause the film and watch at your own pace. However, in a cinema, you get a bigger screen, surround sound, and a unique atmosphere that makes the movie more exciting.

COLLOCATIONS – DEFINITIONS:

1. **watch at your own pace** – View something at the speed you prefer.
2. **cinema experience** – The special feeling of watching in a theatre.
3. **surround sound** – Sound system that comes from all directions.
4. **unique atmosphere** – A special environment or feeling.
5. **home comfort** – Relaxation and ease in your own space.

2. Why are there fewer people going to the cinema to watch movies nowadays?
Sample Answer (Band 7+):
Nowadays, fewer people go to cinemas because streaming platforms like Netflix or Disney+ are more affordable and convenient. People can watch movies anytime at home without buying tickets or traveling. The pandemic also changed people's habits, making home entertainment more popular.

COLLOCATIONS – DEFINITIONS:

1. **streaming platforms** – Online services for watching movies or series.
2. **affordable option** – Something that is not too expensive.
3. **home entertainment** – Enjoyment at home through media.
4. **changed habits** – A shift in people's usual behavior.
5. **buying tickets** – Purchasing entry passes to the cinema.

3. What makes a movie a blockbuster?
Sample Answer (Band 7+):
A movie becomes a blockbuster when it has a high budget, famous actors, and strong marketing. It usually attracts a huge audience worldwide and earns massive box office revenue. Blockbusters often include exciting stories, stunning visuals, and unforgettable soundtracks.

COLLOCATIONS – DEFINITIONS:

1. **high-budget film** – A movie with a lot of money spent on production.
2. **famous actors** – Well-known celebrities in the cast.
3. **strong marketing** – Powerful promotion and advertising.
4. **box office revenue** – Money earned from selling cinema tickets.

5. **stunning visuals** – Impressive and beautiful special effects.

4. Why do people of different ages like different types of movies?
Sample Answer (Band 7+):
Different age groups have different interests and life experiences. Young people prefer action, fantasy, or comedy films, while older audiences often enjoy dramas or documentaries. Personal taste is also influenced by culture, generation, and personal values.

COLLOCATIONS – DEFINITIONS:

1. **different age groups** – People of various ages.
2. **life experiences** – Events and knowledge gained throughout life.
3. **personal taste** – Individual likes and dislikes.
4. **influenced by culture** – Shaped by traditions and society.
5. **film preferences** – Choices in movie genres.

5. Are actors and actresses important to movies?
Sample Answer (Band 7+):
Yes, actors and actresses are crucial because they bring characters to life. Famous actors can also attract larger audiences. However, a good script and strong direction are equally important for a movie's success.

COLLOCATIONS – DEFINITIONS:

1. **bring characters to life** – Make roles seem real and believable.
2. **star power** – The influence of famous celebrities.
3. **larger audiences** – A big number of viewers.
4. **strong direction** – Effective leadership by the film director.
5. **movie's success** – How well a film performs.

6. Do people in your country still like to go to a cinema?
Sample Answer (Band 7+):
Yes, people in my country still enjoy going to the cinema, especially young people and families. They go for special occasions, new releases, or just to have fun with friends. However, it is less common than before because of online alternatives.

COLLOCATIONS – DEFINITIONS:

1. **new releases** – Movies that have just come out.
2. **special occasions** – Important events or celebrations.
3. **family outing** – Going out together as a family.
4. **fun with friends** – Enjoyment in social groups.
5. **online alternatives** – Digital options instead of cinemas.

7. Where do people watch movies?

Sample Answer (Band 7+):

People watch movies in many places: at home on TV or streaming apps, in cinemas, on laptops, or even on mobile phones. Nowadays, technology allows people to watch films almost anywhere, from buses to airports.

COLLOCATIONS – DEFINITIONS:

1. **streaming apps** – Applications for online movie watching.
2. **watch on mobile phones** – View films on smartphones.
3. **cinema halls** – Movie theatres where people gather.
4. **almost anywhere** – In many different places.
5. **technology allows** – Modern tools make something possible.

Topic 17: Disagreements

1. How can we stop an argument from escalating into a fight?
Sample Answer (Band 7+):
We can stop an argument from escalating into a fight by staying calm and listening to the other person carefully. It is important to use polite language, avoid raising our voice, and try to find common ground. Taking a short break before continuing the discussion can also prevent conflicts from getting worse.

COLLOCATIONS – DEFINITIONS:

1. **stay calm** – Remain relaxed and not angry.
2. **listen carefully** – Pay close attention to what someone says.
3. **polite language** – Words that are respectful and kind.
4. **find common ground** – Discover shared ideas or agreements.
5. **prevent conflicts** – Stop disagreements from becoming serious.

2. Why do some people avoid arguing with others?
Sample Answer (Band 7+):
Some people avoid arguing because they value peace and don't want unnecessary stress. Others may feel that arguments damage relationships or are simply a waste of time. In some cultures, avoiding conflict is also seen as a sign of maturity and respect.

COLLOCATIONS – DEFINITIONS:

1. **value peace** – Consider harmony more important.
2. **unnecessary stress** – Pressure that is not needed.
3. **damage relationships** – Harm friendships or connections.
4. **waste of time** – Something not worth doing.
5. **sign of maturity** – Behavior that shows responsibility.

3. Who do you think should teach children to respect their teacher?
Sample Answer (Band 7+):
I believe both parents and schools share responsibility in teaching children to respect their teachers. Parents should set an example at home by showing respect to others, while schools should encourage discipline and good manners. Together, they can help children understand the value of respect.

COLLOCATIONS – DEFINITIONS:

1. **share responsibility** – Divide duties between people.
2. **set an example** – Act as a role model for others.
3. **show respect** – Treat others politely and kindly.
4. **encourage discipline** – Support self-control and order.

5. **good manners** – Polite behavior in social situations.

4. How do we show respect to others when we disagree with them?
Sample Answer (Band 7+):
We can show respect by listening without interrupting, using calm and respectful words, and acknowledging their opinion even if we don't agree. It is also important to stay polite and focus on the issue, not on the person.

COLLOCATIONS – DEFINITIONS:

1. **without interrupting** – Letting someone finish speaking.
2. **acknowledge their opinion** – Accept that others have a right to think differently.
3. **stay polite** – Continue being respectful.
4. **focus on the issue** – Discuss the problem, not the person.
5. **respectful words** – Language that shows politeness.

5. What do you do if you disagree with someone?
Sample Answer (Band 7+):
If I disagree with someone, I try to explain my point of view calmly and provide reasons. I also listen to their perspective and try to understand it. If we cannot agree, I think it is better to compromise or simply agree to disagree.

COLLOCATIONS – DEFINITIONS:

1. **point of view** – Someone's opinion or perspective.
2. **provide reasons** – Give explanations for something.
3. **listen to their perspective** – Understand another person's opinion.
4. **compromise solution** – Finding a middle ground.
5. **agree to disagree** – Accepting different opinions peacefully.

6. What disagreements do parents and children usually have?
Sample Answer (Band 7+):
Parents and children usually disagree about daily routines, such as bedtime, screen time, and study habits. Teenagers often argue with parents about freedom, friendships, or lifestyle choices. These disagreements are natural but can be solved through communication and understanding.

COLLOCATIONS – DEFINITIONS:

1. **daily routines** – Regular everyday activities.
2. **screen time** – Hours spent using digital devices.
3. **study habits** – The way a person studies.
4. **lifestyle choices** – Decisions about how to live (clothes, hobbies, etc.).
5. **solved through communication** – Fixed by talking openly.

1. What bad behaviour do children usually have?
Sample Answer (Band 7+):
Children usually show bad behaviour such as being rude, shouting, refusing to share, or not listening to adults. Sometimes they also become impatient or throw tantrums when things don't go their way. These behaviours are common but can be corrected with proper guidance.

COLLOCATIONS – DEFINITIONS:

1. **being rude** – Using impolite words or actions.
2. **refuse to share** – Not wanting to give or divide things with others.
3. **throw tantrums** – Sudden angry outbursts, especially by children.
4. **not listening to adults** – Ignoring instructions or advice.
5. **proper guidance** – Correct advice or teaching.

2. How should parents stop their children from behaving badly in public?
Sample Answer (Band 7+):
Parents should stop bad behaviour in public by staying calm and correcting their children politely. They can set clear rules beforehand and explain why good manners are important. Rewarding positive behaviour and being consistent also helps children learn discipline.

COLLOCATIONS – DEFINITIONS:

1. **stay calm** – Remain relaxed and not angry.
2. **set clear rules** – Establish simple and strict instructions.
3. **good manners** – Polite and respectful behaviour.
4. **reward positive behaviour** – Give praise or gifts for good actions.
5. **learn discipline** – Understand rules and self-control.

3. Are parents these days stricter than those in the past?
Sample Answer (Band 7+):
I think parents in the past were stricter because they used traditional methods such as punishment and strict discipline. Nowadays, parents are usually more flexible and focus on communication rather than punishment. However, some modern parents are still very firm when it comes to rules.

COLLOCATIONS – DEFINITIONS:

1. **stricter discipline** – Stronger control and punishment.
2. **traditional methods** – Old-fashioned ways of teaching or correcting.
3. **focus on communication** – Pay attention to talking and understanding.
4. **flexible parenting** – More relaxed and adaptable style of raising children.
5. **firm rules** – Strong and clear regulations.

---

4. Whose influence on children is more important, that of friends or that of parents?
Sample Answer (Band 7+):
Both are important, but I believe parents have a stronger influence because they shape values, manners, and basic education from an early age. Friends, on the other hand, influence children's interests, hobbies, and social behaviour. A balance between both influences is necessary for healthy development.

COLLOCATIONS – DEFINITIONS:

1. **stronger influence** – Greater effect on someone.
2. **shape values** – Form moral or cultural beliefs.
3. **basic education** – Fundamental knowledge taught in childhood.
4. **social behaviour** – How someone acts in society.
5. **healthy development** – Good mental, physical, and social growth.

Topic 19: Stars, Planets and Space

1. What kind of people are interested in stars?
Sample Answer (Band 7+):
People who are naturally curious and interested in science are usually fascinated by stars. Astronomers and space lovers study them for knowledge, while ordinary people often enjoy stargazing as a relaxing hobby. Children also tend to be amazed by the beauty of the night sky.

COLLOCATIONS – DEFINITIONS:

1. **naturally curious** – Having a strong desire to learn.
2. **fascinated by stars** – Deeply interested in stars.
3. **space lovers** – People who are passionate about space.
4. **stargazing hobby** – Watching stars for enjoyment.
5. **night sky beauty** – The attractive view of stars at night.

2. Is high technology helpful for star watching?
Sample Answer (Band 7+):
Yes, high technology is very helpful for star watching because telescopes, satellites, and modern apps allow people to see stars and planets clearly. Technology also helps scientists discover new galaxies and understand the universe better.

COLLOCATIONS – DEFINITIONS:

1. **high technology** – Advanced machines and tools.
2. **powerful telescope** – A strong device for viewing distant objects.
3. **modern apps** – Digital applications for learning or exploring.
4. **discover new galaxies** – Find previously unknown star systems.
5. **understand the universe** – Learn more about outer space.

3. Should kids know more about stars and planets?
Sample Answer (Band 7+):
Yes, kids should know more about stars and planets because it develops their imagination and scientific thinking. Learning about space also inspires curiosity and may encourage them to choose a career in science or technology.

COLLOCATIONS – DEFINITIONS:

1. **develop imagination** – Improve creative thinking.
2. **scientific thinking** – Logical and analytical way of understanding.
3. **inspire curiosity** – Motivate someone to ask questions.
4. **career in science** – A professional path in scientific fields.
5. **space education** – Learning about planets, stars, and the universe.

4. Would people be willing to get up early to watch and enjoy the sunrise?
Sample Answer (Band 7+):
Yes, many people are willing to wake up early for the sunrise because it is a beautiful and refreshing experience. Some see it as a way to start the day with positive energy, while others enjoy taking photos or simply relaxing in nature.

COLLOCATIONS – DEFINITIONS:

1. **wake up early** – Get out of bed before usual time.
2. **refreshing experience** – Something that gives new energy.
3. **positive energy** – A good and motivating feeling.
4. **take photos** – Capture images with a camera or phone.
5. **relax in nature** – Enjoy peaceful natural surroundings.

5. When would people watch the sky?
Sample Answer (Band 7+):
People usually watch the sky at night when stars and the moon are visible. They also look at the sky during special events like eclipses, meteor showers, or festivals. Some enjoy watching the sky in the morning to see the sunrise or in the evening for the sunset.

COLLOCATIONS – DEFINITIONS:

1. **meteor showers** – Events when many shooting stars appear.
2. **lunar eclipse** – When the Earth blocks the moon's light.
3. **special events** – Rare or important occasions.
4. **sunrise and sunset** – The time when the sun rises or sets.
5. **visible stars** – Stars that can be seen clearly.

6. Do many people pay attention to the shapes of stars?
Sample Answer (Band 7+):
Yes, some people pay attention to the shapes of stars, especially those who enjoy astronomy or astrology. They often look for constellations and connect stars into patterns. However, ordinary people may just enjoy the view without knowing the scientific details.

COLLOCATIONS – DEFINITIONS:

1. **pay attention to** – Focus on or notice something.
2. **constellation patterns** – Groups of stars forming shapes.
3. **astronomy and astrology** – Science of space and belief in star influence.
4. **scientific details** – Exact facts and information.
5. **ordinary people** – Common or everyday individuals.

Topic 20: Friendship, Social Media

1. Do you still keep in touch with your friends from childhood?

Sample Answer (Band 7+):

Yes, I do. Although we don't meet often, we stay in touch through social media and sometimes make video calls. Whenever I visit my hometown, I try to meet them in person. Childhood friendships are special because they are based on pure memories and trust.

COLLOCATIONS – DEFINITIONS:

1. **keep in touch** – Maintain communication.
2. **childhood friendships** – Close relationships formed during childhood.
3. **pure memories** – Innocent and genuine past experiences.
4. **meet in person** – See someone face-to-face.
5. **long-lasting bond** – A relationship that continues for many years.

2. What's the difference between having younger friends and older friends?

Sample Answer (Band 7+):

Younger friends often bring energy and new ideas, while older friends usually provide wisdom and stability. Younger people can push you to try exciting things, but older friends give valuable advice and emotional support. Having both makes life more balanced.

COLLOCATIONS – DEFINITIONS:

1. **bring energy** – Add enthusiasm or liveliness.
2. **fresh perspectives** – New and different ways of thinking.
3. **valuable advice** – Useful and practical guidance.
4. **emotional support** – Comfort and encouragement in difficult times.
5. **balanced life** – A lifestyle with harmony between different aspects.

3. Has technology changed people's friendships? How?

Sample Answer (Band 7+):

Yes, technology has changed friendships a lot. On one hand, it helps people stay connected across long distances. On the other hand, some friendships have become more superficial because online chats can't replace face-to-face emotions.

COLLOCATIONS – DEFINITIONS:

1. **stay connected** – Remain in contact with others.
2. **long distance friendship** – A friendship maintained despite physical distance.
3. **superficial relationship** – A connection that is not deep or meaningful.
4. **replace emotions** – Take the place of real feelings.
5. **digital communication** – Interaction through technology and online platforms.

4. What do you think of communicating via social media?
Sample Answer (Band 7+):
I think social media communication is convenient and fast, especially when people live far away. But it can never fully replace face-to-face conversations, which allow us to notice emotions and body language. Social media should be used as a tool, not a substitute.

COLLOCATIONS – DEFINITIONS:

1. **convenient and fast** – Easy and quick to use.
2. **face-to-face conversation** – Direct personal interaction.
3. **notice body language** – Pay attention to nonverbal gestures.
4. **genuine reactions** – Honest and real responses.
5. **communication tool** – A method used to share information.

5. Will online social media replace face-to-face communication?
Sample Answer (Band 7+):
I don't think so. Social media is important for daily updates, but humans naturally need personal contact. Trust and emotional intimacy are much easier to build in person. So, social media will support communication, but not replace it completely.

COLLOCATIONS – DEFINITIONS:

1. **daily updates** – Regular news or information shared online.
2. **personal contact** – Direct human interaction.
3. **build trust** – Develop confidence in someone.
4. **emotional intimacy** – Deep emotional closeness.
5. **support communication** – Help improve interaction.

6. Is it necessary for kids to have some close friends?
Sample Answer (Band 7+):
Yes, absolutely. Childhood friends help children learn how to share, cooperate, and solve conflicts. Close friendships also give kids emotional security and reduce loneliness, which are very important for their development.

COLLOCATIONS – DEFINITIONS:

1. **close friends** – People with a strong personal connection.
2. **learn to cooperate** – Understand how to work with others.
3. **solve conflicts** – Find peaceful solutions to disagreements.
4. **emotional security** – Feeling safe and supported emotionally.
5. **reduce loneliness** – Make someone feel less alone.

Topic 21: Foreign Languages

1. What is the impact of IT on learning foreign languages?

Sample Answer (Band 7+):

IT has had a huge impact on language learning. Online platforms, apps, and AI tools make it easier for students to practice anytime and anywhere. Learners can connect with native speakers through video chats, and interactive software helps improve pronunciation and listening skills.

COLLOCATIONS – DEFINITIONS:

1. **huge impact** – Very strong influence.
2. **online platforms** – Websites or apps for learning.
3. **native speakers** – People who speak a language as their first language.
4. **interactive software** – Programs that allow two-way learning.
5. **improve pronunciation** – Make speaking clearer and more accurate.

2. Is it interesting to be a foreign language teacher?

Sample Answer (Band 7+):

Yes, I think so. Being a language teacher is rewarding because you help students discover a new culture and way of thinking. It can also be challenging, but every class is different, which makes the job exciting and dynamic.

COLLOCATIONS – DEFINITIONS:

1. **rewarding career** – A job that gives satisfaction.
2. **discover a new culture** – Learn about traditions and lifestyles.
3. **way of thinking** – Perspective or mindset.
4. **challenging job** – Work that is difficult but stimulating.
5. **exciting and dynamic** – Energetic and always changing.

3. What effect will it have on students if a teacher is impatient with them?

Sample Answer (Band 7+):

If a teacher is impatient, students may feel nervous and lose confidence. They might also be afraid to ask questions, which slows down their progress. A supportive teacher, on the other hand, creates a positive learning atmosphere.

COLLOCATIONS – DEFINITIONS:

1. **lose confidence** – Stop believing in yourself.
2. **feel nervous** – Become anxious or uncomfortable.
3. **ask questions** – Seek clarification.
4. **slow down progress** – Delay improvement.
5. **positive learning atmosphere** – A supportive and encouraging environment.

4. Why do people learn foreign languages?
Sample Answer (Band 7+):
People learn foreign languages for many reasons. Some want better job opportunities, others want to travel, and many enjoy learning about other cultures. Knowing another language also improves communication skills and broadens one's perspective.

COLLOCATIONS – DEFINITIONS:

1. **job opportunities** – Chances for employment.
2. **broaden perspective** – Expand the way you see the world.
3. **cultural awareness** – Understanding of different cultures.
4. **communication skills** – Ability to express ideas effectively.
5. **enjoy learning** – Take pleasure in studying.

5. Do you think learning a foreign language is important?
Sample Answer (Band 7+):
Yes, it is very important in today's globalized world. A foreign language allows people to connect internationally, build careers, and understand different cultures. It also makes traveling and studying abroad much easier.

COLLOCATIONS – DEFINITIONS:

1. **globalized world** – A world where countries are interconnected.
2. **connect internationally** – Communicate with people from other countries.
3. **build careers** – Develop professional life.
4. **study abroad** – Learn in a foreign country.
5. **cultural understanding** – Awareness of other traditions.

6. What qualities should a good language teacher have?
Sample Answer (Band 7+):
A good language teacher should be patient, creative, and motivating. They should also use different teaching methods to keep lessons engaging. Most importantly, they must inspire students to practice consistently.

COLLOCATIONS – DEFINITIONS:

1. **be patient** – Stay calm when students make mistakes.
2. **creative methods** – Innovative teaching styles.
3. **keep lessons engaging** – Make classes interesting.
4. **inspire students** – Encourage learners to do better.
5. **practice consistently** – Study regularly without stopping.

7. What makes a good language teacher?
Sample Answer (Band 7+):
I believe a good language teacher combines knowledge of the subject with empathy. They explain clearly, adapt to students' needs, and make lessons enjoyable. A good teacher also encourages students to be confident speakers.

COLLOCATIONS – DEFINITIONS:

1. **combine knowledge with empathy** – Be both knowledgeable and understanding.
2. **explain clearly** – Make lessons easy to understand.
3. **adapt to needs** – Change methods according to students.
4. **make lessons enjoyable** – Create a fun learning process.
5. **confident speakers** – Learners who express themselves without fear.

8. Do you think grammar is important?
Sample Answer (Band 7+):
Yes, grammar is important because it provides the structure of a language. Without it, communication may become confusing. However, focusing only on grammar is not enough; speaking and listening practice are equally necessary.

COLLOCATIONS – DEFINITIONS:

1. **language structure** – The system of grammar and rules.
2. **confusing communication** – Hard-to-understand conversation.
3. **focus on grammar** – Pay special attention to grammar.
4. **speaking practice** – Oral practice of a language.
5. **listening practice** – Training to understand spoken language.

Topic 23: Motivation, Goals

1. What are some good ways to persuade children?

Sample Answer (Band 7+):

One good way is to use positive reinforcement, like rewarding them for good behavior. Another way is explaining the benefits clearly so they understand why something is important. Sometimes storytelling also works because children learn through imagination.

COLLOCATIONS – DEFINITIONS:

1. **positive reinforcement** – Rewarding good behavior.
2. **good behavior** – Polite or correct actions.
3. **explain the benefits** – Make the advantages clear.
4. **learn through imagination** – Understand by using creativity.
5. **encourage cooperation** – Motivate children to work together.

2. How does advertising influence children and their parents?

Sample Answer (Band 7+):

Advertising often influences children by showing colorful images and catchy slogans. Children then ask their parents to buy those products. Parents may also feel pressure to satisfy their kids or be influenced by promises of quality and safety.

COLLOCATIONS – DEFINITIONS:

1. **catchy slogans** – Memorable short phrases.
2. **colorful images** – Bright and attractive pictures.
3. **feel pressure** – Experience stress to do something.
4. **promises of quality** – Claims that something is good.
5. **buying decisions** – Choices about what to purchase.

3. How do ads persuade people?

Sample Answer (Band 7+):

Ads persuade people by appealing to emotions, such as happiness or fear of missing out. They also use celebrities, discounts, and attractive packaging to convince customers. In short, advertising creates a desire that people feel they must satisfy.

COLLOCATIONS – DEFINITIONS:

1. **appeal to emotions** – Target feelings instead of logic.
2. **fear of missing out** – Worry about losing an opportunity.
3. **celebrity endorsement** – When famous people promote products.
4. **attractive packaging** – Beautiful wrapping or design.
5. **create desire** – Make people want something.

4. Do you think advertisements can influence our decisions when shopping?
Sample Answer (Band 7+):
Yes, definitely. Advertisements shape our preferences and often make us believe a product is better than others. Even when we think we are making independent choices, marketing strategies strongly affect our final decision.

COLLOCATIONS – DEFINITIONS:

1. **shape preferences** – Influence likes and choices.
2. **make us believe** – Convince someone.
3. **independent choices** – Decisions made alone.
4. **marketing strategies** – Plans to promote products.
5. **final decision** – The last choice made.

5. How does marketing make people choose particular goods and brands?
Sample Answer (Band 7+):
Marketing builds a strong brand image through advertisements, social media, and promotions. People are more likely to choose brands that they see as trustworthy or popular. Discounts and loyalty programs also play a big role in influencing choice.

COLLOCATIONS – DEFINITIONS:

1. **brand image** – Public perception of a company.
2. **trustworthy brand** – A reliable and honest company.
3. **loyalty programs** – Rewards for repeat customers.
4. **popular choice** – Something many people prefer.
5. **consumer behavior** – How people buy and use products.

6. Who do children listen to more, their parents or their teachers?
Sample Answer (Band 7+):
It depends. Younger children usually listen to parents more because of emotional attachment, while older students may respect teachers for their knowledge. In general, both parents and teachers shape a child's values and behavior.

COLLOCATIONS – DEFINITIONS:

1. **emotional attachment** – A strong emotional connection.
2. **respect teachers** – Value educators' role.
3. **shape values** – Influence moral beliefs.
4. **gain knowledge** – Acquire information.
5. **influence behavior** – Affect how someone acts.

7. What do parents often persuade their children to do?

Sample Answer (Band 7+):

Parents usually persuade children to study hard, eat healthy food, and avoid bad habits. They also encourage kids to follow rules and respect others. Such guidance prepares children for a responsible future.

COLLOCATIONS – DEFINITIONS:

1. **study hard** – Put a lot of effort into learning.
2. **eat healthy food** – Consume nutritious meals.
3. **avoid bad habits** – Stay away from harmful behavior.
4. **follow rules** – Obey instructions.
5. **responsible future** – A mature and reliable adulthood.

8. What advice should young people follow?

Sample Answer (Band 7+):

Young people should follow advice such as setting clear goals, managing time wisely, and staying disciplined. They should also listen to constructive feedback and keep learning from mistakes. This helps them achieve success in the long run.

COLLOCATIONS – DEFINITIONS:

1. **set clear goals** – Define specific objectives.
2. **manage time wisely** – Use time efficiently.
3. **stay disciplined** – Maintain self-control.
4. **constructive feedback** – Helpful advice for improvement.
5. **achieve success** – Reach desired goals.

Topic 24: Sharing Things

1. Is there anything that parents should persuade children to share with others?

Sample Answer (Band 7+):

Yes, parents should encourage children to share toys, books, and even food. Sharing these things helps them build friendships and develop generosity. It also teaches them that happiness grows when it is shared.

COLLOCATIONS – DEFINITIONS:

1. **encourage sharing** – Motivate someone to share.
2. **build friendships** – Form close relationships.
3. **develop generosity** – Learn to be kind and giving.
4. **share toys/books** – Let others use belongings.
5. **happiness grows when shared** – Joy increases when it is given to others.

2. How can governments encourage shared transport?

Sample Answer (Band 7+):

Governments can promote shared transport by improving public transit, offering discounts for carpooling, and raising awareness about environmental benefits. If people see it as convenient and cost-effective, they will naturally choose it.

COLLOCATIONS – DEFINITIONS:

1. **promote shared transport** – Support group travel options.
2. **improve public transit** – Make buses, trains, etc. better.
3. **carpooling discounts** – Reduced prices for shared car rides.
4. **raise awareness** – Inform people about something important.
5. **cost-effective option** – Something that saves money.

3. Why is it important to share food with others during a celebration?

Sample Answer (Band 7+):

Sharing food during celebrations creates a sense of togetherness and joy. It helps people strengthen relationships and shows respect for cultural traditions. In many societies, food is a symbol of love and hospitality.

COLLOCATIONS – DEFINITIONS:

1. **sense of togetherness** – Feeling of unity.
2. **strengthen relationships** – Make bonds stronger.
3. **cultural traditions** – Customs passed down in a community.
4. **symbol of love** – Representation of affection.
5. **show hospitality** – Demonstrate kindness to guests.

4. How can parents and teachers teach children to share?
Sample Answer (Band 7+):
They can set an example by sharing themselves. Teachers can use group activities where children must work together, and parents can praise kids when they share. Positive reinforcement is the best method.

COLLOCATIONS – DEFINITIONS:

1. **set an example** – Be a role model.
2. **group activities** – Tasks done in teams.
3. **work together** – Cooperate with others.
4. **praise kids** – Say good things about children's behavior.
5. **positive reinforcement** – Rewarding good actions.

5. Do you think kids like to share?
Sample Answer (Band 7+):
Not always. Young kids can be possessive of their toys because they don't fully understand the value of sharing. However, with guidance and encouragement, most children enjoy sharing as they realize it brings them more friends.

COLLOCATIONS – DEFINITIONS:

1. **be possessive of** – Want to keep something for yourself.
2. **value of sharing** – Importance of giving to others.
3. **with guidance** – With proper teaching or advice.
4. **enjoy sharing** – Feel happy to give.
5. **make more friends** – Gain new companions.

6. What is the benefit of sharing for children?
Sample Answer (Band 7+):
Sharing teaches children empathy and cooperation. It helps them build social skills and reduces selfish behavior. In the long run, children who share grow into adults who value teamwork and kindness.

COLLOCATIONS – DEFINITIONS:

1. **teach empathy** – Help understand others' feelings.
2. **learn cooperation** – Develop skills to work with others.
3. **build social skills** – Improve ability to interact.
4. **reduce selfish behavior** – Decrease self-centered actions.
5. **value teamwork** – Appreciate working with others.

Topic 24: Goals

1. Do people in your country set goals?

Sample Answer (Band 7+):

Yes, most people in my country do set goals, especially related to education, career, and family. Young people often aim for academic success, while adults usually focus on financial stability and personal development.

COLLOCATIONS – DEFINITIONS:

1. **set goals** – Decide on objectives.
2. **academic success** – Good performance in studies.
3. **financial stability** – Having steady income and security.
4. **personal development** – Improving oneself.
5. **long-term vision** – Thinking about the future.

2. Do people usually set long-term goals or short-term ones?

Sample Answer (Band 7+):

It depends on the person. Some prefer short-term goals like finishing a course or buying something, while others focus on long-term goals such as building a career or buying a house. Ideally, both should be balanced.

COLLOCATIONS – DEFINITIONS:

1. **short-term goal** – Something to achieve soon.
2. **long-term ambition** – A dream for the distant future.
3. **build a career** – Develop professional life.
4. **achieve balance** – Maintain equal importance.
5. **step-by-step progress** – Gradual improvement.

3. Why is setting goals important in the workplace?

Sample Answer (Band 7+):

Goals in the workplace give employees direction and motivation. They also help companies measure progress and improve productivity. Without goals, people may lose focus and waste time.

COLLOCATIONS – DEFINITIONS:

1. **give direction** – Provide a clear path.
2. **boost motivation** – Increase willingness to work.
3. **measure progress** – Check how much has been achieved.
4. **improve productivity** – Increase efficiency.
5. **stay focused** – Keep attention on tasks.

4. What is the difference between goals set by old people and young people?
Sample Answer (Band 7+):
Young people usually set goals related to studies, jobs, and personal growth, while older people often focus on health, family, and financial security. Basically, young people look forward, while older people want stability.

COLLOCATIONS – DEFINITIONS:

1. **personal growth** – Developing skills and character.
2. **financial security** – Protection against money problems.
3. **focus on health** – Pay attention to physical well-being.
4. **seek stability** – Look for steady conditions.
5. **look forward** – Think about the future positively.

5. How do people set goals?
Sample Answer (Band 7+):
Most people set goals by planning carefully and breaking them into smaller steps. Some use the SMART method, which means goals should be specific, measurable, achievable, relevant, and time-bound.

COLLOCATIONS – DEFINITIONS:

1. **break into steps** – Divide into smaller tasks.
2. **careful planning** – Organized preparation.
3. **SMART goals** – Specific, Measurable, Achievable, Relevant, Time-bound.
4. **time-bound target** – A goal with a deadline.
5. **stay on track** – Continue in the right direction.

6. Do you think people should have personal life goals?
Sample Answer (Band 7+):
Yes, absolutely. Personal goals give life meaning and help people stay motivated. They may include learning new skills, traveling, or building relationships. Having clear goals makes people more focused and satisfied with their lives.

COLLOCATIONS – DEFINITIONS:

1. **give life meaning** – Make life valuable.
2. **stay motivated** – Keep feeling encouraged.
3. **learn new skills** – Gain fresh abilities.
4. **build relationships** – Develop connections with others.
5. **feel satisfied** – Experience happiness and fulfillment.

Topic 25: Patience

1. Why do some people like a slow-paced life?

Sample Answer (Band 7+):

Some people enjoy a slow-paced life because it reduces stress and allows them to focus on meaningful experiences. They prefer quality over quantity and value peace of mind more than constant achievement.

COLLOCATIONS – DEFINITIONS:

1. **slow-paced life** – A relaxed lifestyle.
2. **reduce stress** – Lower anxiety and pressure.
3. **focus on meaningful experiences** – Pay attention to valuable moments.
4. **quality over quantity** – Prefer value instead of amount.
5. **peace of mind** – A calm and stress-free state.

2. Compared to the past, are people less patient now?

Sample Answer (Band 7+):

Yes, I believe so. Modern technology has made everything faster, from online shopping to instant messaging. As a result, people are less willing to wait, and patience is becoming a rare virtue.

COLLOCATIONS – DEFINITIONS:

1. **modern technology** – Current digital tools.
2. **instant messaging** – Sending messages immediately.
3. **less willing to wait** – Not ready to be patient.
4. **rare virtue** – A quality that is uncommon.
5. **fast-paced society** – A world that moves quickly.

3. How can people become more patient?

Sample Answer (Band 7+):

People can become more patient by practicing mindfulness and managing expectations. Learning to stay calm in stressful situations and focusing on long-term rewards also helps improve patience.

COLLOCATIONS – DEFINITIONS:

1. **practice mindfulness** – Be aware and calm in the present.
2. **manage expectations** – Control hopes or demands.
3. **stay calm** – Remain relaxed.
4. **long-term rewards** – Benefits in the future.
5. **improve patience** – Develop the ability to wait.

4. What can you do while waiting in line?
Sample Answer (Band 7+):
While waiting, people can listen to music, read something on their phones, or simply observe their surroundings. Some even use the time to reflect or plan their day.

COLLOCATIONS – DEFINITIONS:

1. **wait in line** – Stand in a queue.
2. **listen to music** – Play songs for entertainment.
3. **observe surroundings** – Look around attentively.
4. **reflect on life** – Think deeply about personal matters.
5. **plan the day** – Organize tasks for later.

5. Is patience always a good characteristic?
Sample Answer (Band 7+):
Mostly yes, but not always. Patience is good when dealing with challenges or people, but being overly patient can lead to missed opportunities. Sometimes quick action is necessary.

COLLOCATIONS – DEFINITIONS:

1. **good characteristic** – Positive personality trait.
2. **deal with challenges** – Handle difficult situations.
3. **missed opportunities** – Chances lost.
4. **quick action** – Fast decision-making.
5. **find balance** – Maintain a middle ground.

6. Do you think people have to have patience?
Sample Answer (Band 7+):
Yes, patience is essential in life. Whether it's building a career, maintaining relationships, or achieving goals, success always requires time and persistence. Without patience, people easily give up.

COLLOCATIONS – DEFINITIONS:

1. **essential quality** – A must-have characteristic.
2. **maintain relationships** – Keep friendships or family bonds strong.
3. **achieve goals** – Reach objectives.
4. **require persistence** – Need continuous effort.
5. **easily give up** – Quit without trying enough.

7. Do you think children have more patience than adults?
Sample Answer (Band 7+):
Usually, adults have more patience because they've learned from experience. Children often want instant gratification and struggle to wait. However, some children can be surprisingly patient when motivated.

COLLOCATIONS – DEFINITIONS:

1. **learn from experience** – Gain wisdom through life events.
2. **instant gratification** – Immediate satisfaction.
3. **struggle to wait** – Find it difficult to be patient.
4. **surprisingly patient** – More patient than expected.
5. **when motivated** – If encouraged properly.

8. Why do most children have difficulties waiting for a long time?
Sample Answer (Band 7+):
Children have difficulties waiting because their attention span is short. They also live in a world of instant rewards like cartoons, games, and fast food. This makes it hard for them to understand the value of patience.

COLLOCATIONS – DEFINITIONS:

1. **short attention span** – Ability to focus for a brief time.
2. **instant rewards** – Quick satisfaction.
3. **difficult to wait** – Hard to remain patient.
4. **value of patience** – Importance of being patient.
5. **fast-paced childhood** – Growing up in a quick-moving world.

Topic 26: Shopping

1. Do people in your country go to the shopping mall frequently?

Sample Answer (Band 7+):

Yes, shopping malls are quite popular in my country, especially among young people. They don't only go there to buy things, but also to socialize, watch movies, or enjoy meals in restaurants. For many families, visiting a mall has become more of a leisure activity than just a shopping trip.

COLLOCATIONS – DEFINITIONS:

1. **shopping destination** – A place people go to shop.
2. **socialize with friends** – Spend time with friends.
3. **family outing** – A trip together as a family.
4. **leisure activity** – Something done for enjoyment.
5. **window shopping** – Looking at items without buying.

2. How have people's shopping habits changed in recent decades?

Sample Answer (Band 7+):

People's shopping habits have changed a lot in recent decades. In the past, people mostly shopped in local markets or small stores. Nowadays, online shopping and large malls dominate. Convenience, wider product variety, and home delivery have completely reshaped the way people buy things.

COLLOCATIONS – DEFINITIONS:

1. **shopping habits** – The way people shop.
2. **local markets** – Traditional open-air markets.
3. **wider product variety** – A bigger range of items.
4. **home delivery** – Products delivered to your house.
5. **reshape consumer behavior** – Change the way people shop.

3. Do you think shops and shopping malls will disappear in the future?

Sample Answer (Band 7+):

I don't think they will completely disappear, but their role might change. Online shopping is growing rapidly, but people still enjoy the experience of going out, trying clothes on, and interacting with others. Malls may evolve into entertainment hubs rather than just shopping centers.

COLLOCATIONS – DEFINITIONS:

1. **completely disappear** – Stop existing at all.
2. **grow rapidly** – Increase very quickly.
3. **try clothes on** – Wear something before buying.
4. **shopping experience** – The feeling of buying in-store.

5. **entertainment hub** – A place for fun activities.

4. What are the differences between shopping in street markets and big shopping malls?

Sample Answer (Band 7+):

Street markets are usually cheaper, more colorful, and have a local atmosphere. People can bargain and buy fresh products. Shopping malls, on the other hand, offer branded goods, fixed prices, air conditioning, and convenience. Both have their advantages depending on what people are looking for.

COLLOCATIONS – DEFINITIONS:

1. **street markets** – Outdoor places selling goods.
2. **local atmosphere** – Traditional community feeling.
3. **bargain for prices** – Negotiate to pay less.
4. **branded goods** – Products from famous companies.
5. **fixed prices** – Prices that cannot be changed.

5. What are the differences in the shopping habits of different age groups?

Sample Answer (Band 7+):

Younger people tend to shop online more often because they are tech-savvy and look for trendy items. Middle-aged people usually prefer shopping malls for convenience and quality. Older people often stick to local stores or markets because they value personal interaction and trust the sellers.

COLLOCATIONS – DEFINITIONS:

1. **tech-savvy** – Good with technology.
2. **trendy items** – Fashionable products.
3. **prefer convenience** – Like things that are easy.
4. **value personal interaction** – Appreciate face-to-face contact.
5. **trust the sellers** – Believe in the honesty of shopkeepers.

6. What are the differences between shopping online and in-store?

Sample Answer (Band 7+):

Shopping online is more convenient because you can do it anytime, anywhere, and it often offers discounts. But you can’t touch or try products before buying. Shopping in-store gives you immediate access to goods and allows you to check quality directly, but it usually takes more time and effort.

COLLOCATIONS – DEFINITIONS:

1. **shop anytime, anywhere** – Buy without time/place limits.
2. **get discounts** – Receive lower prices.

3. **check product quality** – Inspect if something is good.
4. **immediate access** – Get something right away.
5. **time and effort** – Energy and hours spent.

Topic 27: Arguments

1. Is it easier for you to have arguments with your family or with your friends?

Sample Answer (Band 7+):

Personally, I think it's easier to have arguments with my family, because family members usually forgive quickly and don't hold grudges. With friends, arguments can sometimes damage the relationship more seriously, so I try to avoid them.

COLLOCATIONS – DEFINITIONS:

1. **hold grudges** – Keep anger for a long time.
2. **damage the relationship** – Harm a friendship.
3. **argue over small things** – Disagree about unimportant issues.
4. **resolve conflicts** – Solve disagreements.
5. **avoid confrontation** – Stay away from fights.

2. When two people have an argument, do you think they should find a third party to ask for advice?

Sample Answer (Band 7+):

Yes, sometimes a third party can be very helpful, especially if both sides are too emotional. A neutral person can listen objectively and suggest fair solutions. However, not all arguments need outside help; small ones can be resolved privately.

COLLOCATIONS – DEFINITIONS:

1. **third party** – A person not directly involved.
2. **neutral person** – Someone without bias.
3. **listen objectively** – Hear without personal judgment.
4. **suggest fair solutions** – Offer balanced advice.
5. **resolve privately** – Fix the issue by themselves.

3. Do you think people should change the way they think when having arguments?

Sample Answer (Band 7+):

Definitely. Many people argue just to win, but it's better to argue to understand each other. If people focus on listening instead of only defending themselves, arguments would be more productive and less stressful.

COLLOCATIONS – DEFINITIONS:

1. **argue to win** – Disagree only to prove you're right.
2. **defend yourself** – Protect your opinion.
3. **productive argument** – A useful discussion.
4. **less stressful** – Not causing much tension.
5. **open-minded approach** – Accepting different views.

4. Is the argument important?
Sample Answer (Band 7+):
Yes, arguments can be important because they help people express their opinions and solve problems. Of course, constant arguing is unhealthy, but constructive arguments can strengthen relationships and clear misunderstandings.

COLLOCATIONS – DEFINITIONS:

1. **express opinions** – Share personal views.
2. **solve problems** – Find solutions.
3. **constant arguing** – Quarreling all the time.
4. **constructive arguments** – Helpful and positive discussions.
5. **clear misunderstandings** – Remove confusion.

5. What arguments occur between family members?
Sample Answer (Band 7+):
Family members often argue about daily routines, household chores, or money matters. Parents and children may disagree about school, freedom, or lifestyle choices. These arguments are usually normal and temporary.

COLLOCATIONS – DEFINITIONS:

1. **household chores** – Daily home tasks.
2. **money matters** – Financial issues.
3. **lifestyle choices** – Decisions about how to live.
4. **normal disagreements** – Usual small arguments.
5. **temporary conflict** – Short-term fight.

6. What personal qualities should lawyers have?
Sample Answer (Band 7+):
Lawyers should be logical, confident, and persuasive. They need strong communication skills to argue cases effectively. At the same time, honesty and integrity are essential because clients must be able to trust them.

COLLOCATIONS – DEFINITIONS:

1. **logical thinker** – A person who reasons clearly.
2. **strong communication skills** – Ability to speak and write well.
3. **argue cases effectively** – Present legal arguments well.
4. **honesty and integrity** – Moral uprightness.
5. **gain client trust** – Earn confidence from clients.

7. What makes a good lawyer?

Sample Answer (Band 7+):

A good lawyer combines knowledge of the law with empathy for clients. They prepare cases carefully, present arguments persuasively, and stay calm under pressure. Most importantly, they defend their clients while respecting justice.

COLLOCATIONS – DEFINITIONS:

1. **combine knowledge with empathy** – Be both skilled and understanding.
2. **prepare cases carefully** – Study legal files in detail.
3. **present arguments persuasively** – Speak in a convincing way.
4. **stay calm under pressure** – Remain composed in stressful situations.
5. **respect justice** – Value fairness and law.

Topic 28: Punctuality

1. Do you think people should remember their family history?

Sample Answer (Band 7+):

Yes, I do. Remembering family history helps people understand their roots and identity. It also allows younger generations to appreciate the struggles and achievements of their ancestors. Family stories often carry valuable lessons that shape our values today.

COLLOCATIONS – DEFINITIONS:

1. **understand their roots** – Know where they come from.
2. **family heritage** – Traditions and values passed down.
3. **carry valuable lessons** – Teach something important.
4. **shape our values** – Influence what we believe.
5. **appreciate ancestors** – Respect past family members.

2. Do you think it's important to be on time?

Sample Answer (Band 7+):

Absolutely. Being on time shows respect for other people's schedules and builds trust. In professional life, punctuality reflects responsibility and discipline. Even in personal life, it helps maintain good relationships because no one likes waiting too long.

COLLOCATIONS – DEFINITIONS:

1. **be on time** – Arrive punctually.
2. **show respect** – Demonstrate consideration.
3. **build trust** – Create confidence in someone.
4. **reflect responsibility** – Indicate reliability.
5. **maintain good relationships** – Keep strong connections.

3. Is punctuality important?

Sample Answer (Band 7+):

Yes, punctuality is extremely important. It's a sign of professionalism and self-discipline. People who are punctual are often seen as reliable and efficient, while being late gives the impression of carelessness.

COLLOCATIONS – DEFINITIONS:

1. **extremely important** – Very significant.
2. **sign of professionalism** – A marker of competence.
3. **self-discipline** – Control over one's actions.
4. **seen as reliable** – Considered trustworthy.
5. **give the impression of** – Make others think something.

4. What do you think is a good way to record things?
Sample Answer (Band 7+):
Nowadays, the best way is to use digital tools like phone apps, online calendars, or reminders. They are practical and always accessible. However, some people still prefer traditional methods such as keeping a diary or writing notes.

COLLOCATIONS – DEFINITIONS:

1. **digital tools** – Electronic devices/software.
2. **set reminders** – Create alerts for tasks.
3. **online calendars** – Digital schedule planners.
4. **keep a diary** – Write daily notes.
5. **write things down** – Record information on paper.

5. Which is more important, a work-related appointment or an appointment with a friend?
Sample Answer (Band 7+):
It depends on the situation. Generally, work-related appointments are more important because they affect one's career and reputation. But at the same time, we shouldn't ignore friends, since strong relationships are also essential for a happy life.

COLLOCATIONS – DEFINITIONS:

1. **work-related appointment** – A meeting connected to job.
2. **affect one's career** – Influence professional growth.
3. **build a reputation** – Create an image of reliability.
4. **ignore friends** – Pay no attention to friends.
5. **happy and balanced life** – A life with both success and joy.

6. If someone doesn't really like whom they are going to meet, they may deliberately miss their appointment. Is that true?
Sample Answer (Band 7+):
Yes, it happens. Some people avoid meetings if they don't feel comfortable with the other person. They may use excuses or simply cancel. However, I think it's better to be honest and explain the reason politely instead of wasting the other person's time.

COLLOCATIONS – DEFINITIONS:

1. **deliberately miss** – Skip something on purpose.
2. **use excuses** – Give reasons that may not be true.
3. **cancel an appointment** – Call off a meeting.
4. **waste someone's time** – Make others wait unnecessarily.
5. **explain politely** – Give reasons in a respectful way.

7. How do people who are busy remember things they need to do?

Sample Answer (Band 7+):

Busy people usually rely on technology. They use reminder apps, calendars, or digital to-do lists. Some also develop personal habits like writing sticky notes, setting alarms, or planning the day every morning to stay organized.

COLLOCATIONS – DEFINITIONS:

1. **rely on technology** – Depend on digital tools.
2. **to-do list** – A list of tasks.
3. **set alarms** – Use alerts for reminders.
4. **stay organized** – Keep things in order.
5. **plan the day** – Arrange daily activities.

Topic 29: Clothes

1. Do you think the style of the clothing is more important than its comfort?

Sample Answer (Band 7+):

I think both style and comfort are important, but it really depends on the situation. For example, at formal events people usually prioritize style because appearance matters. However, in daily life, comfort is essential since no one wants to feel restricted or uneasy all day.

COLLOCATIONS – DEFINITIONS:

1. **prioritize style** – Give more importance to appearance.
2. **formal events** – Special occasions requiring elegant clothes.
3. **appearance matters** – Looks are important.
4. **essential comfort** – Basic need for ease.
5. **feel restricted** – Be uncomfortable due to tight clothes.

2. Do you think young people wear unusual clothes more than other age groups?

Sample Answer (Band 7+):

Yes, young people tend to experiment more with fashion. They often wear unusual or trendy outfits to express their individuality and stand out from the crowd. Older people, on the other hand, usually prefer practical and traditional styles.

COLLOCATIONS – DEFINITIONS:

1. **experiment with fashion** – Try different clothing styles.
2. **express individuality** – Show personal identity.
3. **stand out from the crowd** – Be noticeable or unique.
4. **trendy outfits** – Fashionable clothes.
5. **traditional styles** – Conventional clothing choices.

3. What factors affect people's decisions when buying clothes?

Sample Answer (Band 7+):

People's decisions are influenced by several factors. Price and quality are usually the first considerations. Fashion trends, brand reputation, and even recommendations from friends also play a role. Sometimes people buy clothes just because of discounts or advertising.

COLLOCATIONS – DEFINITIONS:

1. **brand reputation** – Public opinion of a clothing brand.
2. **fashion trends** – Popular clothing styles.
3. **price-conscious** – Careful about the cost.
4. **influenced by advertising** – Affected by commercials.
5. **word of mouth** – Recommendations from others.

4. Do you think it's a good idea to buy clothes online?
Sample Answer (Band 7+):
Yes, online shopping is convenient and offers a wider variety of options. People can compare prices easily and shop from the comfort of home. The only downside is that you can't try the clothes on before buying, which sometimes leads to disappointment.

COLLOCATIONS – DEFINITIONS:

1. **convenient shopping** – Easy and quick buying.
2. **wide variety of options** – Many choices available.
3. **compare prices** – Check differences in cost.
4. **shop from home** – Buy without going out.
5. **face disappointment** – Experience dissatisfaction.

5. What are the differences between clothes worn by old people and those by young people?
Sample Answer (Band 7+):
Young people usually prefer colorful, stylish, and trend-driven clothes, while older people often choose simple, practical, and comfortable outfits. Generational differences also show in accessories—young people like sneakers and caps, while older ones prefer classic shoes and formal wear.

COLLOCATIONS – DEFINITIONS:

1. **trend-driven clothes** – Fashion influenced by trends.
2. **colorful outfits** – Bright clothing.
3. **practical and comfortable** – Useful and easy to wear.
4. **classic shoes** – Traditional footwear.
5. **formal wear** – Professional clothing like suits.

6. What kinds of clothes should people wear at work?
Sample Answer (Band 7+):
That depends on the job. In most offices, people are expected to wear formal or business casual clothes because it looks professional. In creative industries, employees often have more freedom and can wear casual or even trendy outfits.

COLLOCATIONS – DEFINITIONS:

1. **business casual** – A mix of formal and informal clothing.
2. **professional appearance** – Looking suitable for work.
3. **dress code** – Rules about clothing.
4. **creative industries** – Jobs like design, media, or art.
5. **more freedom in clothing** – Fewer restrictions on dress.

7. Do you think people should wear formal clothes in the workplace?
Sample Answer (Band 7+):
Yes, in many workplaces formal clothes are necessary because they create a serious and respectful atmosphere. Formal wear also helps employees make a good impression on clients. That said, some modern companies are moving towards a more relaxed dress code to make workers feel comfortable.

COLLOCATIONS – DEFINITIONS:

1. **formal clothes** – Suits, ties, dresses, etc.
2. **make a good impression** – Create a positive image.
3. **respectful atmosphere** – Professional environment.
4. **relaxed dress code** – Less strict clothing rules.
5. **modern companies** – Progressive businesses with flexible rules.

Topic 30: Inventions

1. Do all inventions bring benefits to our world?

Sample Answer (Band 8):

I don't think all inventions bring benefits. While many inventions improve our quality of life, some can also have negative consequences. For example, technological developments can lead to environmental problems or even job loss due to automation. So, it really depends on how these inventions are used.

COLLOCATIONS – DEFINITIONS:

1. **improve quality of life** – Make life better and easier.
2. **negative consequences** – Harmful results or effects.
3. **technological developments** – Advances in technology.
4. **lead to job loss** – Cause people to lose jobs.
5. **depend on how used** – Result varies based on usage.

2. Who should support and sponsor inventors, governments or private companies?

Sample Answer (Band 8):

I believe both governments and private companies should support inventors. Governments can provide funding for important research, especially in areas like healthcare or education. At the same time, private companies can invest in innovative ideas and help bring them to the market. So, a combination of both would be the most effective approach.

COLLOCATIONS – DEFINITIONS:

1. **provide funding** – Give financial support.
2. **important research** – Valuable scientific studies.
3. **innovative ideas** – New and creative concepts.
4. **bring to the market** – Introduce a product for sale.
5. **effective approach** – Best way to achieve results.

3. What are the qualities of a scientist (or inventor)?

Sample Answer (Band 8):

I think a good scientist needs to be curious, patient, and creative. They should have a strong desire to discover new things and solve problems. In addition, persistence is very important because many inventions require years of effort. Critical thinking and attention to detail also play a key role.

COLLOCATIONS – DEFINITIONS:

1. **strong desire to discover** – Deep motivation to learn new things.
2. **solve problems** – Find solutions to difficulties.
3. **require years of effort** – Take a long time to achieve.
4. **critical thinking** – Ability to analyze logically.
5. **attention to detail** – Focus on small but important aspects.

4. What do you think have been some of the most important inventions in the past 100 years or so?

Sample Answer (Band 8):

In my opinion, the internet is one of the most important inventions in the past century. It has completely transformed communication, education, and business. Other major inventions include smartphones and medical technologies, which have improved healthcare and made information more accessible.

COLLOCATIONS – DEFINITIONS:

1. **transform communication** – Change how people communicate.
2. **medical technologies** – Tools used in healthcare.
3. **improve healthcare** – Make medical services better.
4. **accessible information** – Easy to get information.
5. **major inventions** – Very important innovations.

5. Are there any other inventions that make the world better?

Sample Answer (Band 8):

Yes, there are many inventions that make the world better. For example, renewable energy technologies like solar panels help reduce environmental damage. In addition, transportation systems and modern medicine have made people's lives more convenient and longer. Overall, these inventions contribute to a better quality of life.

COLLOCATIONS – DEFINITIONS:

1. **renewable energy technologies** – Sustainable energy sources.
2. **reduce environmental damage** – Decrease harm to nature.
3. **modern medicine** – Advanced healthcare systems.
4. **make life convenient** – Make daily life easier.
5. **contribute to quality of life** – Help improve living conditions.
